COURAGE

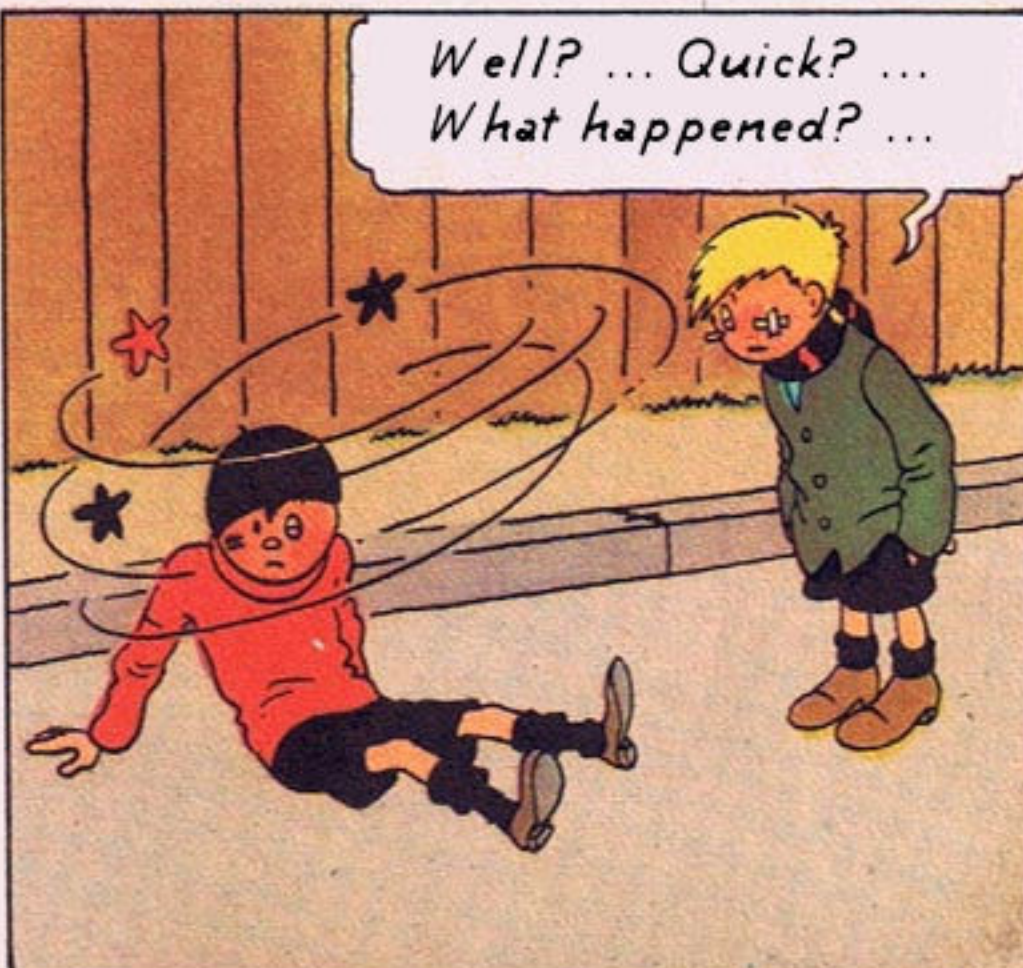

Ah! Curly-top!... you beat the weak!... Aha!... You steal their whirligigs!... Well! Curly-top, if you have never been disciplined, you will be this time!

Where is he?... Ah! there! Hey, Curly-top, come here, I'll teach you to bully someone smaller than you!

Well? ... Quick? ...
What happened? ...

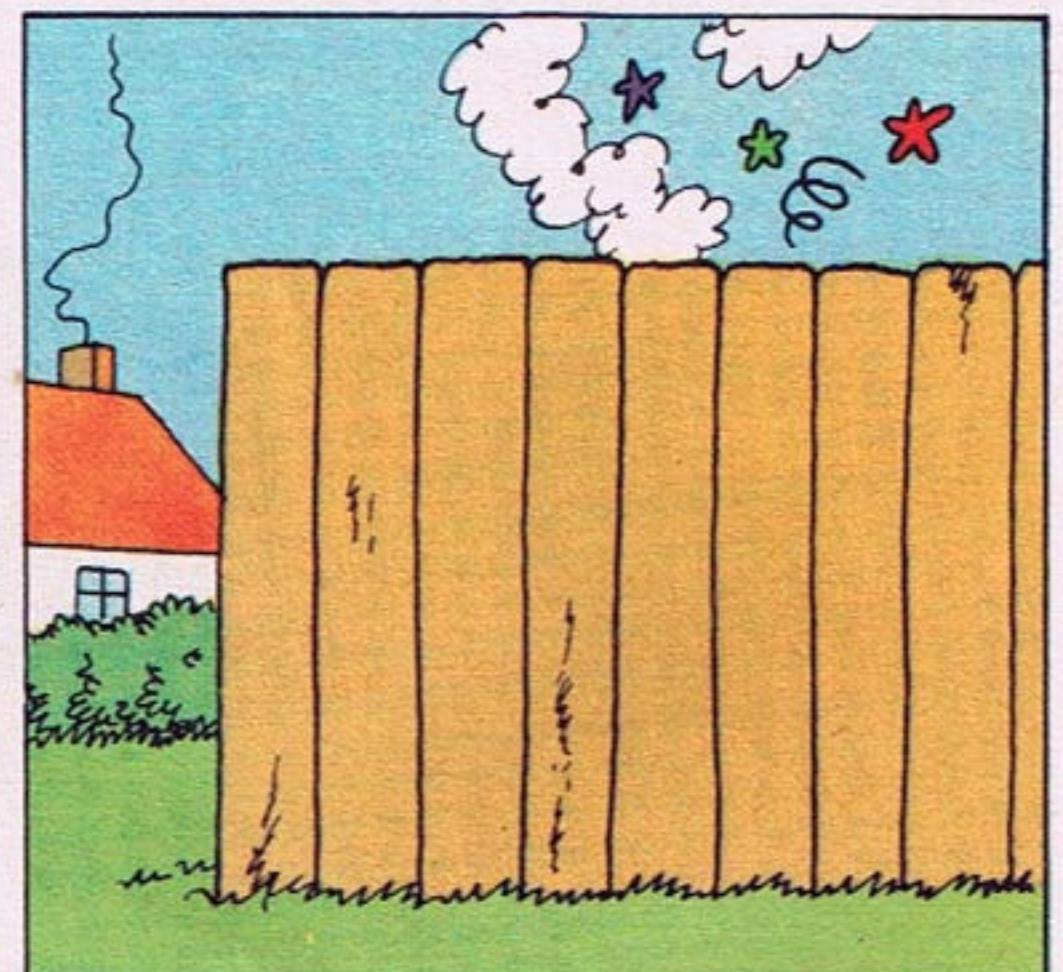

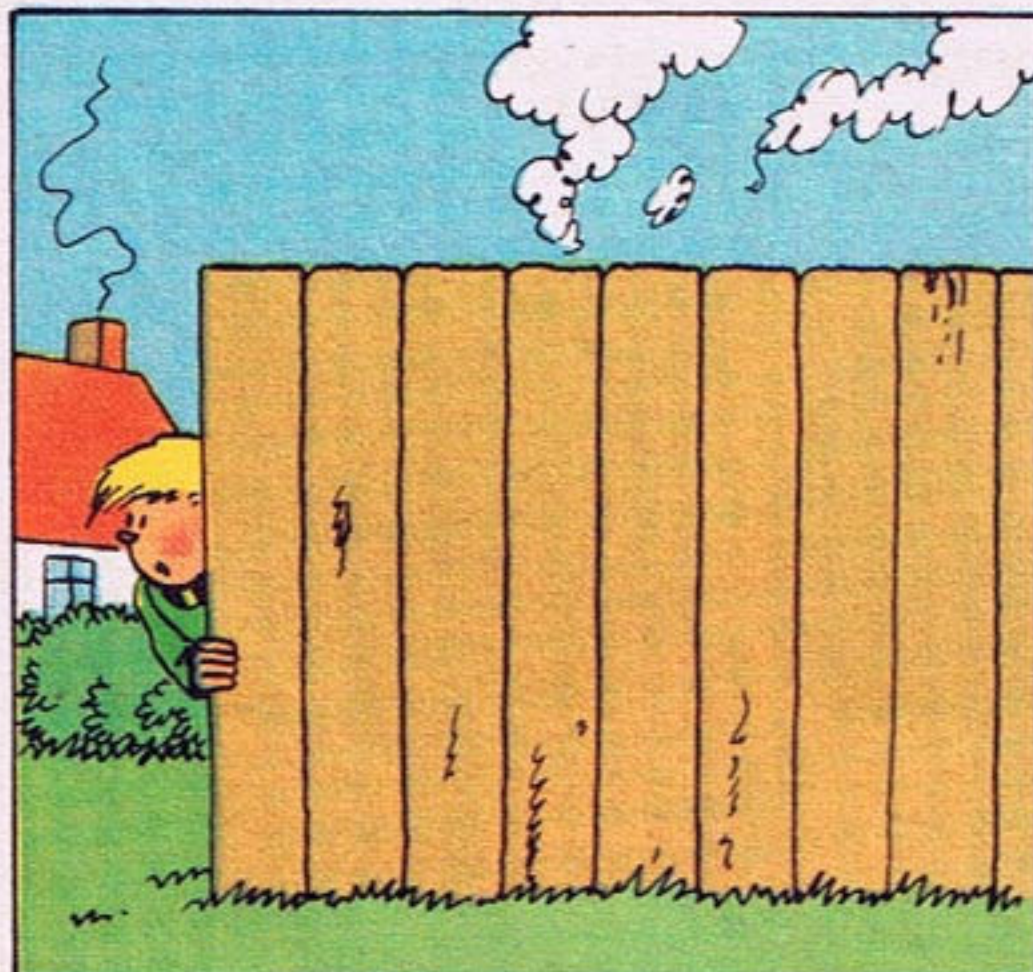

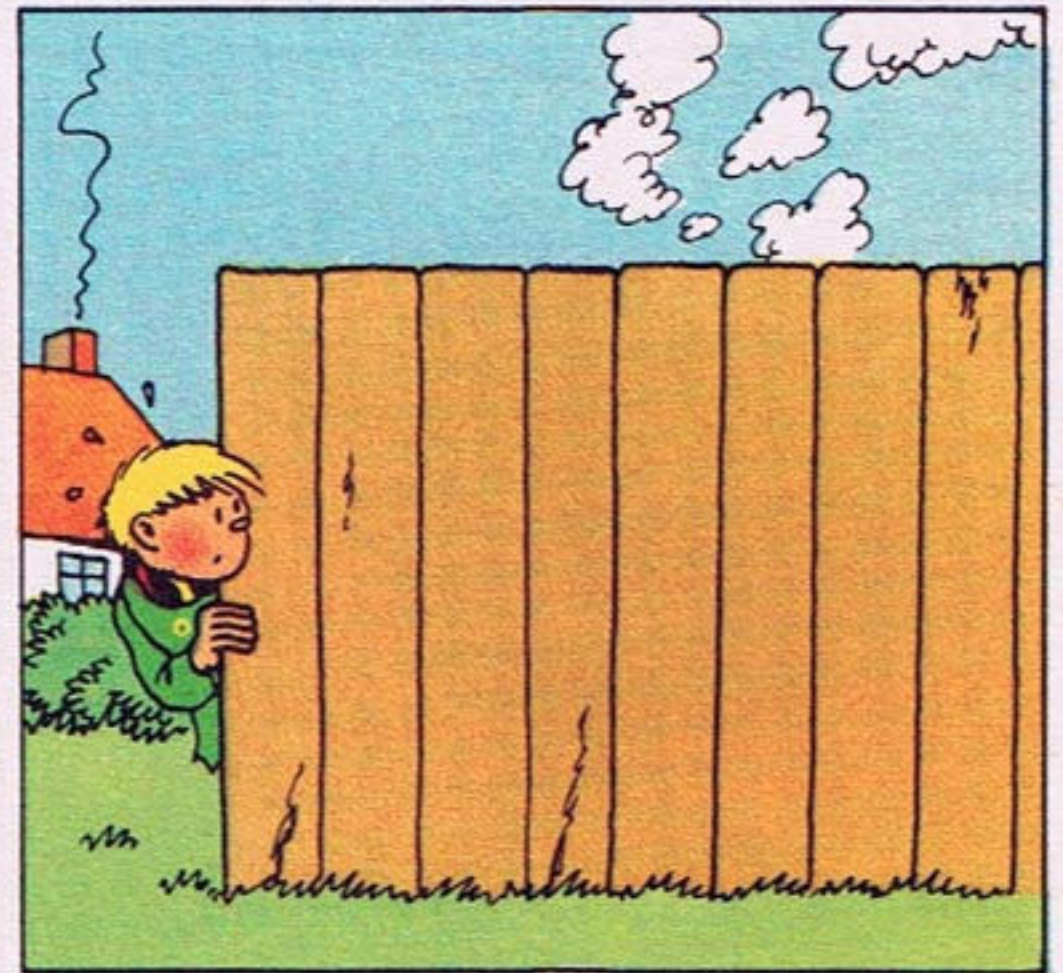

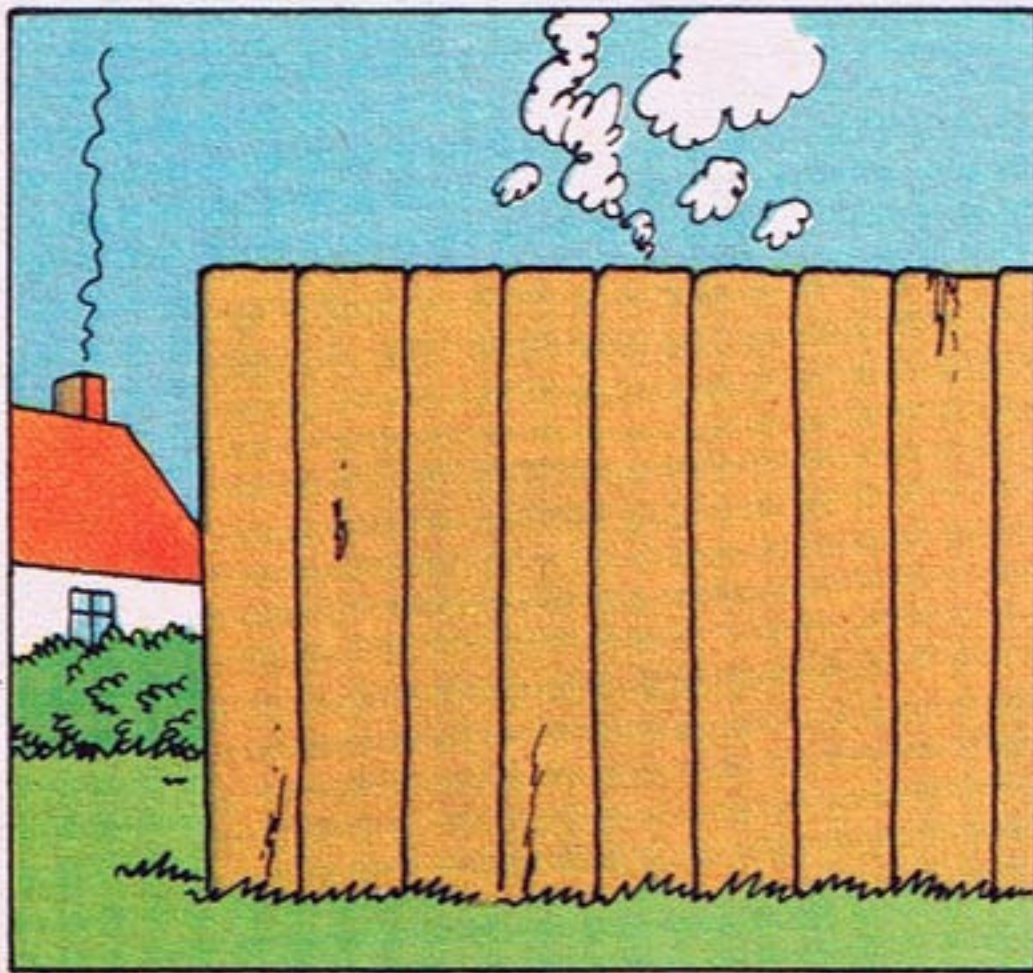

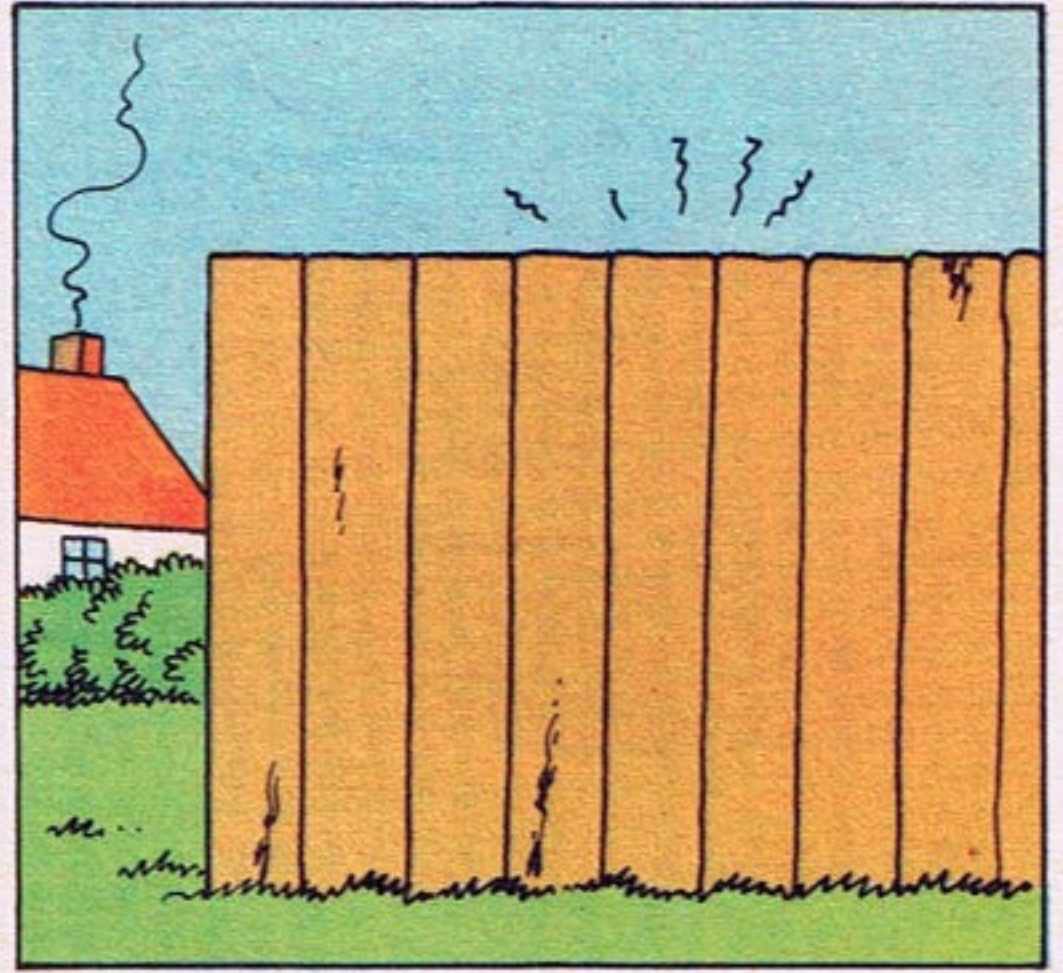

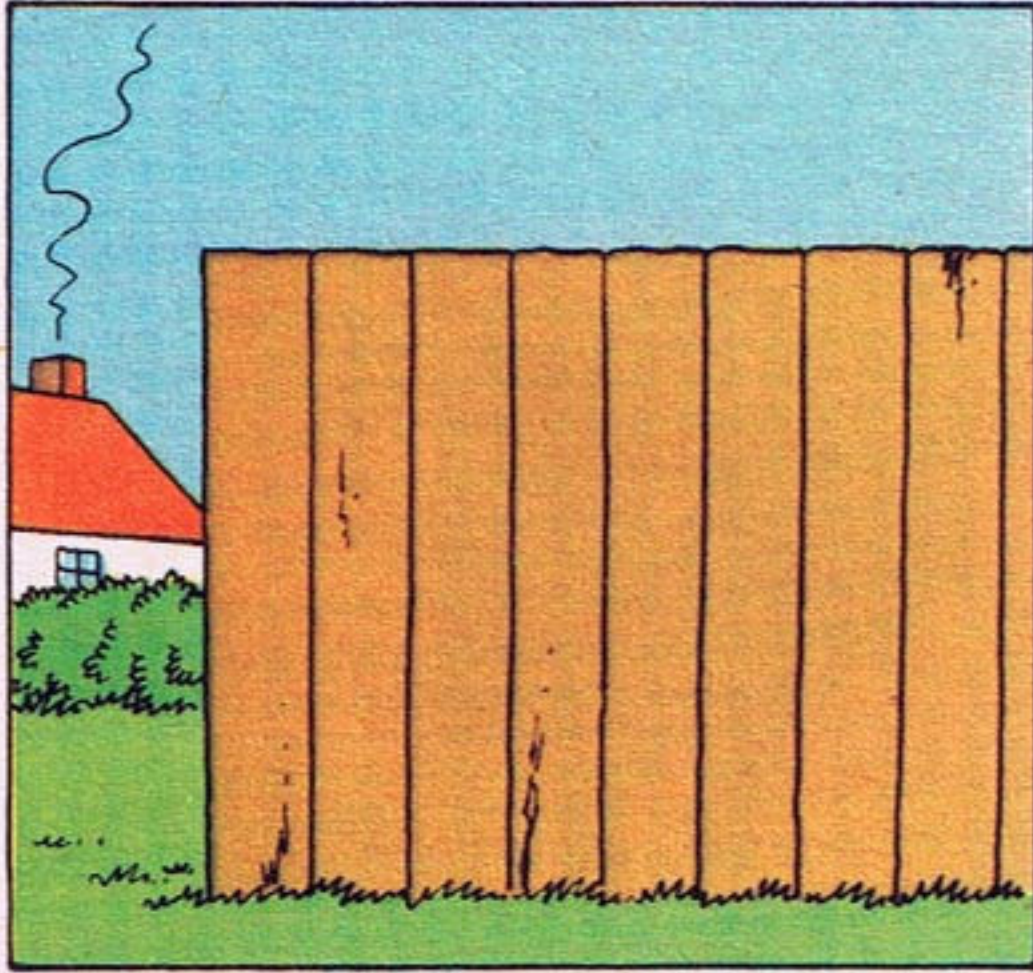

What happened? ... Why, nothing at all! So ... that is to say ... Curly-top was not in the field!

FEATHERS...

Yes All my life I've longed to have the headdress of a great chief.... with lots of feathers But, that's the way it is, there aren't any feathers around here....

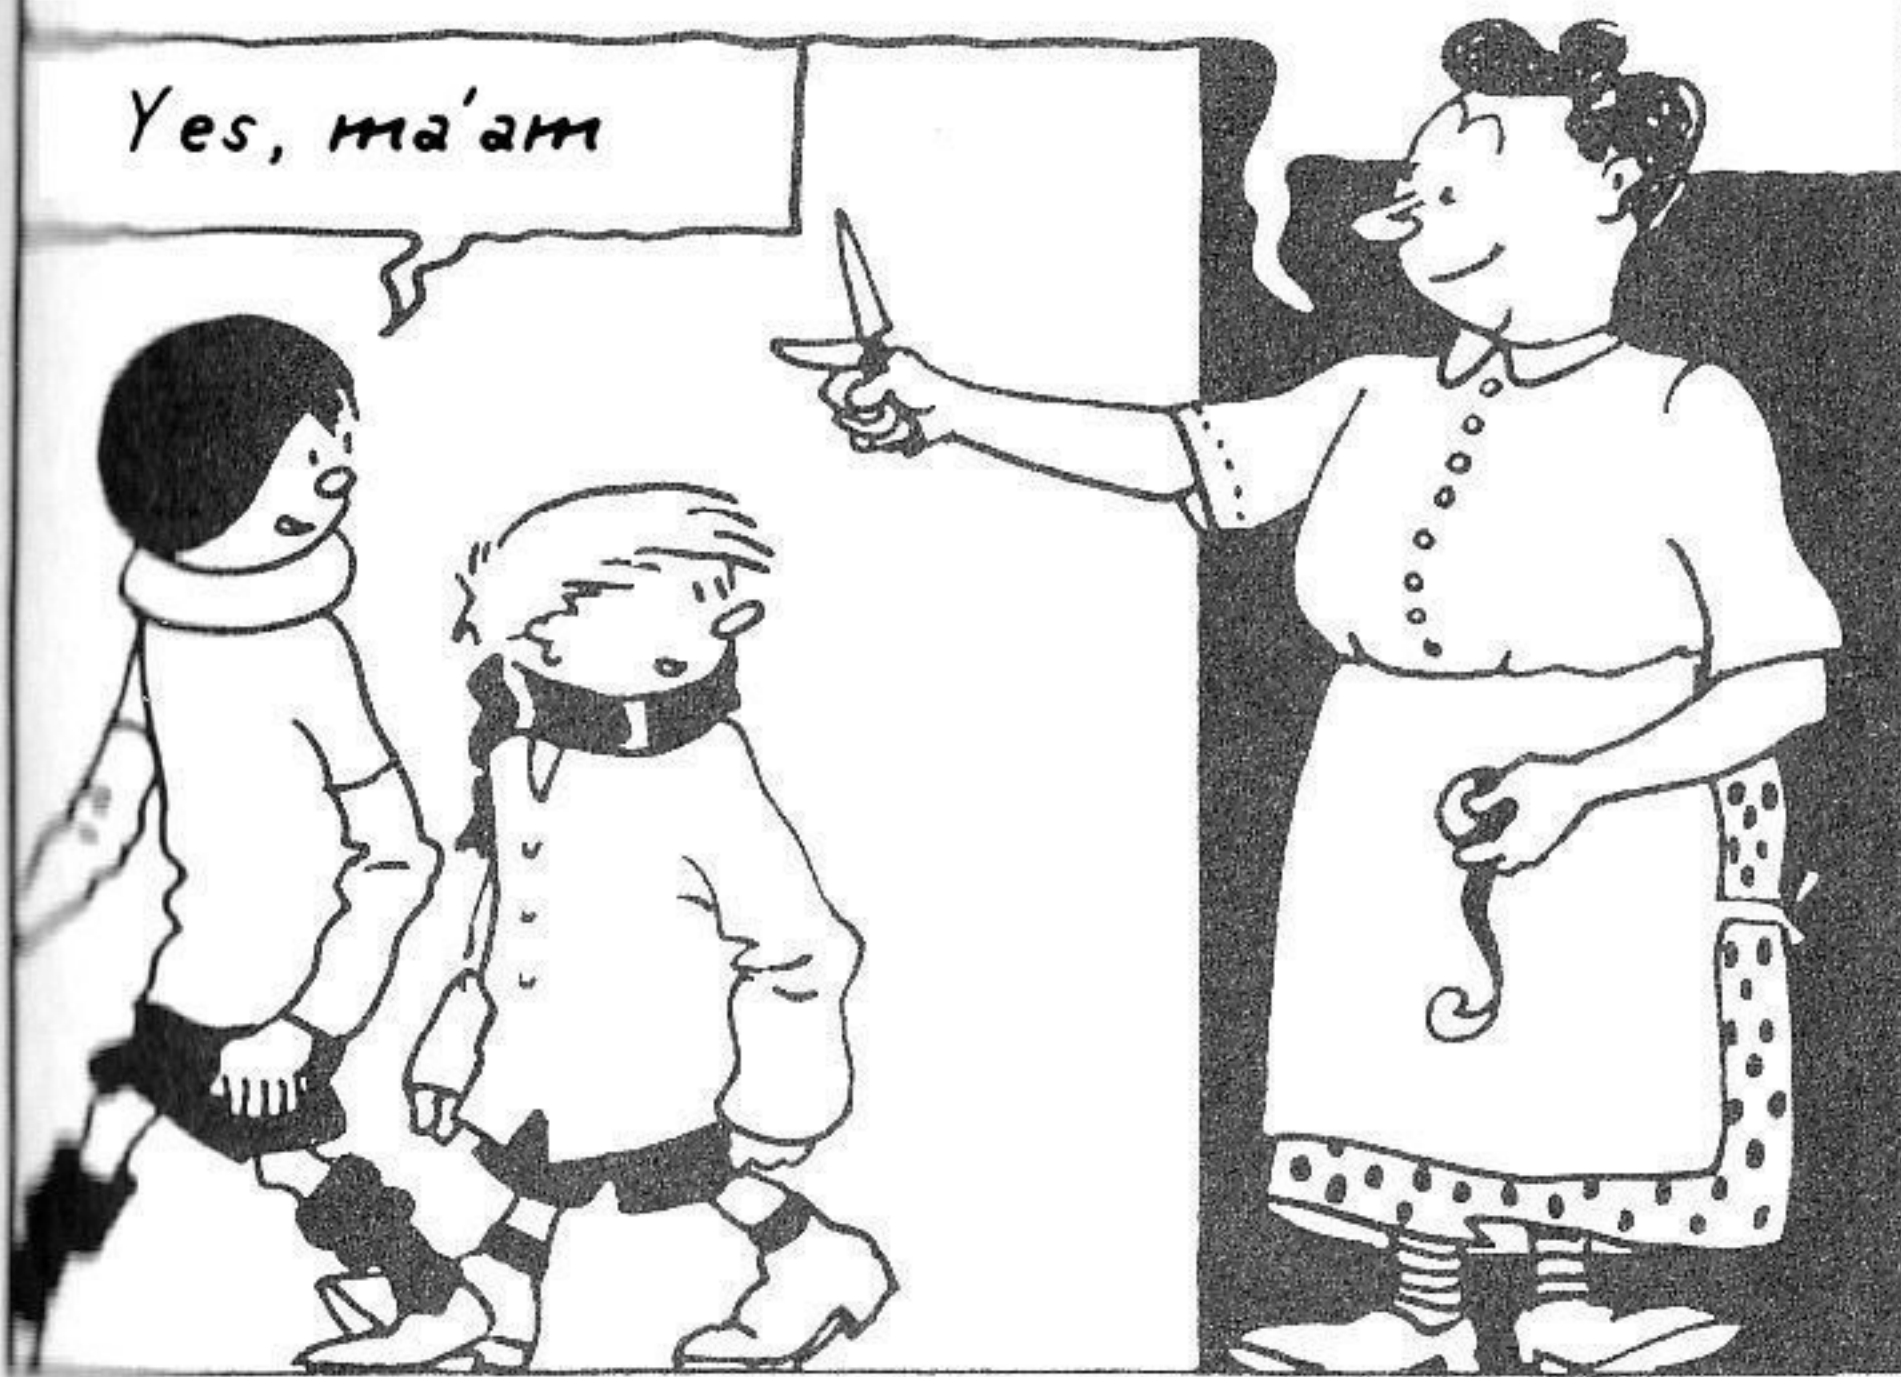

Feathers?... Why not ask the lady that lives at the corner of the street?... She raises chickens....

Certainly, boys, the barn is at the end of the courtyard.... Take any feathers that you find....

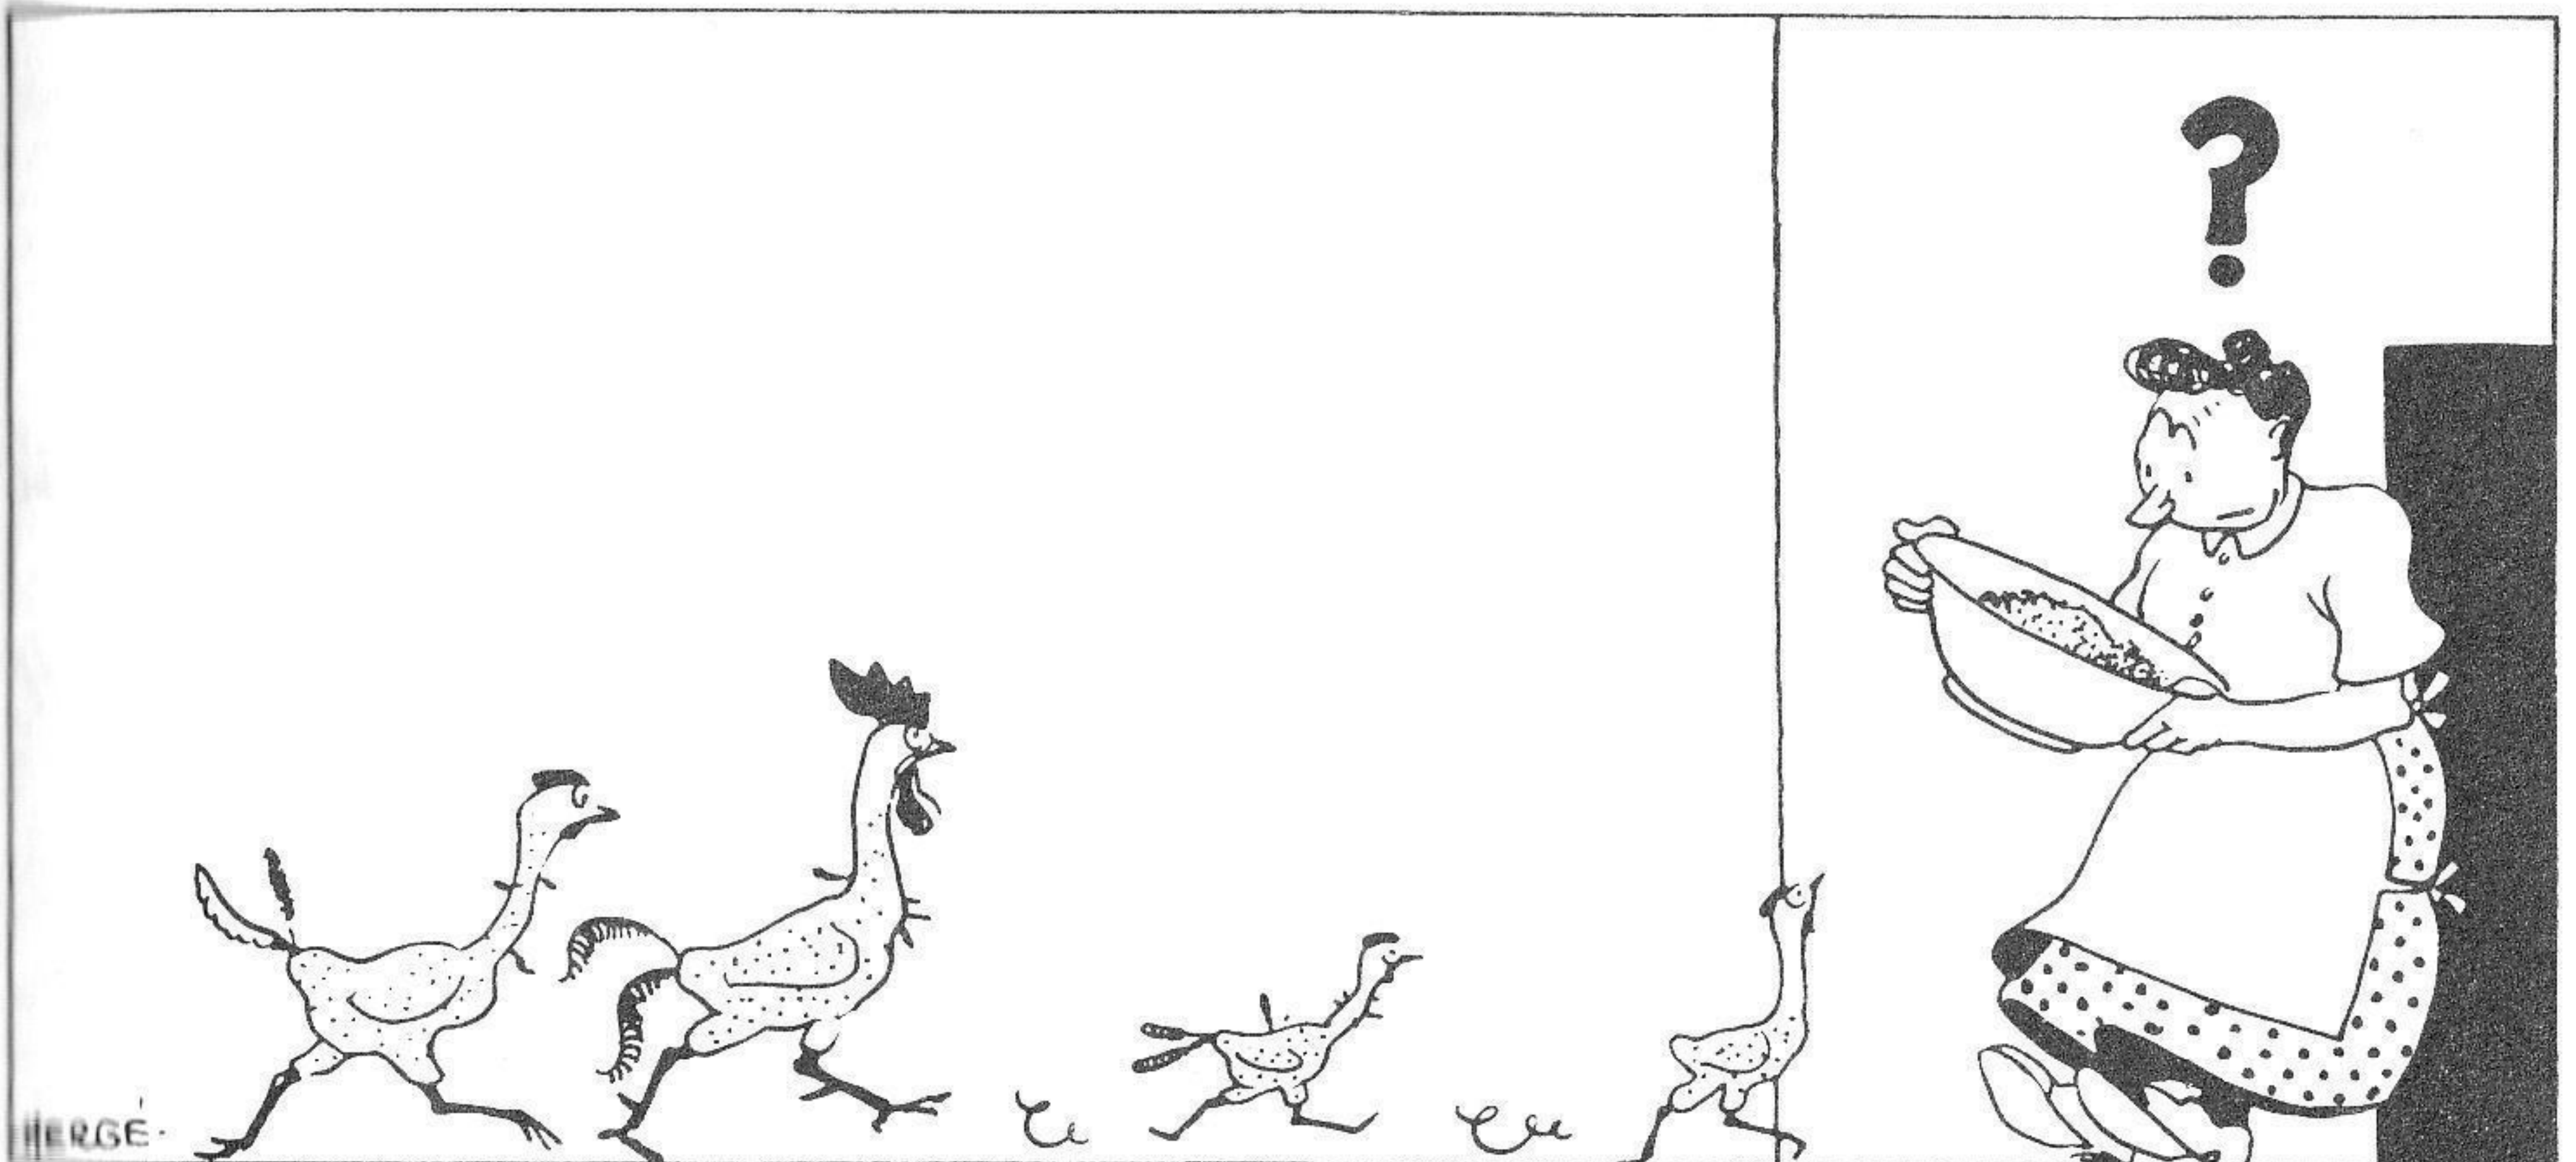

Yes, ma'am

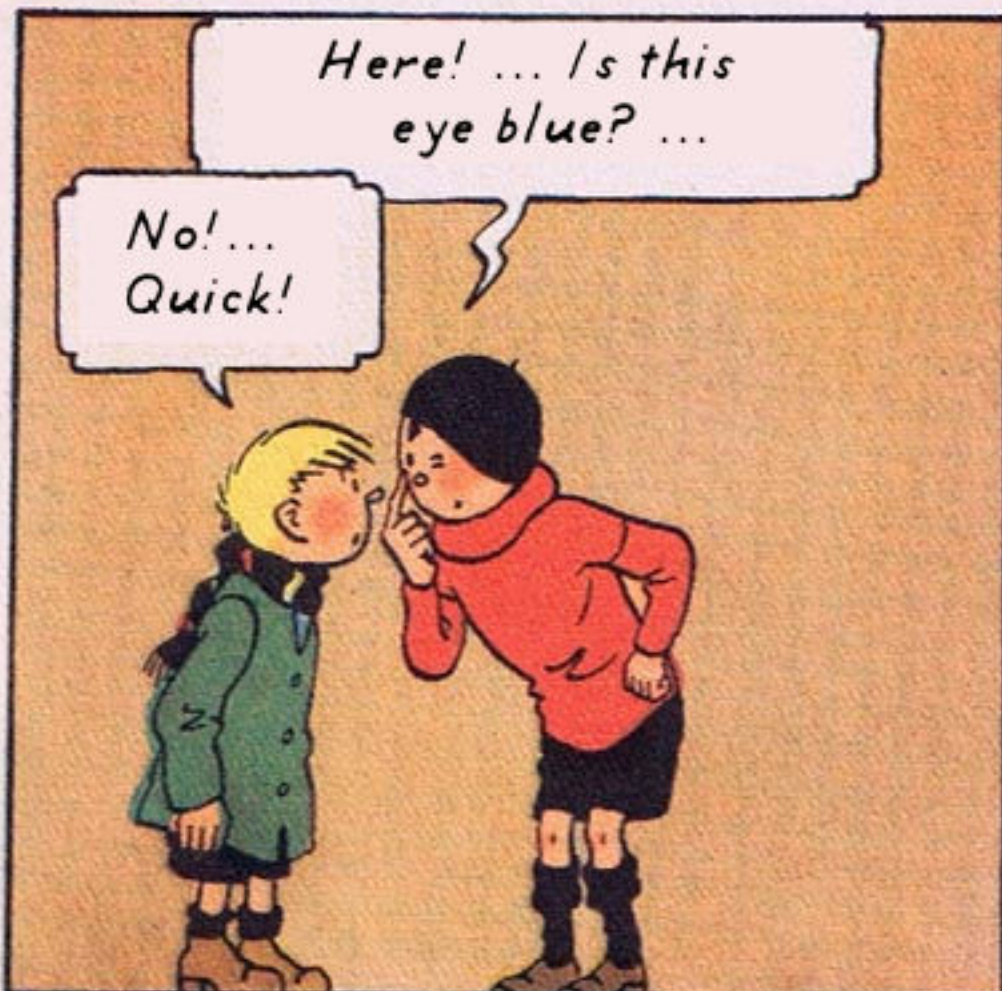

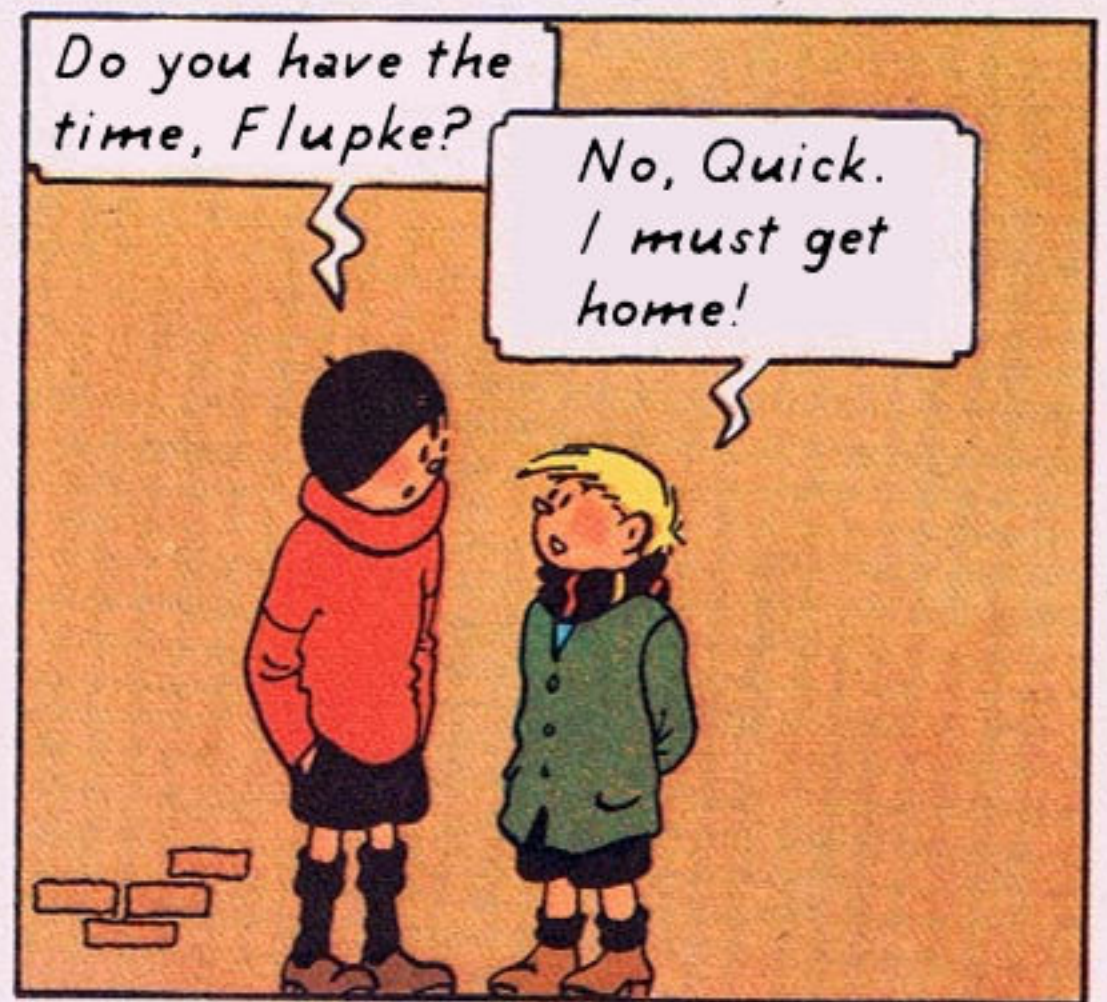

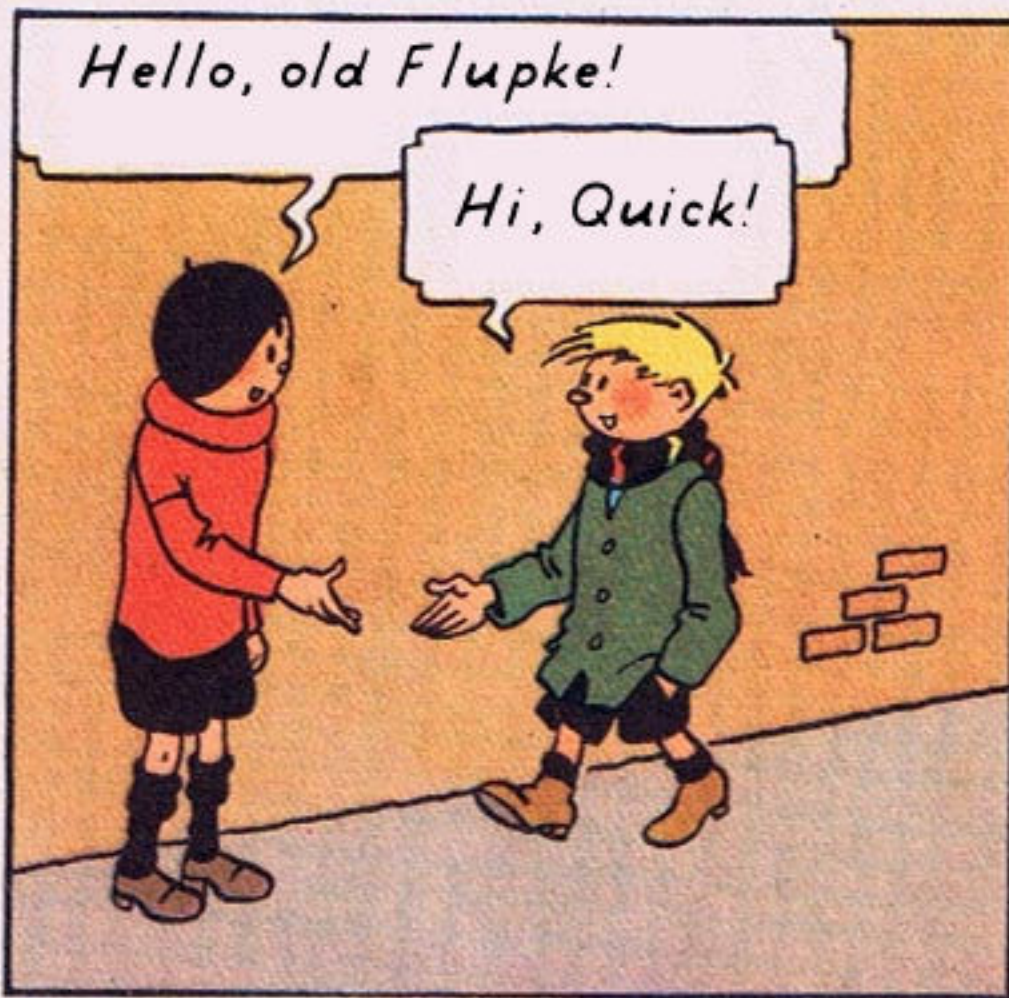

Did you find what you needed, children?

Yes, ma'am, many thanks

Goodbye, ma'am, thanks!...

FLUPKE HAS NO TIME

FLUPKE HAS NO TIME

Good! ... Now, can you tell me why my eyes are not blue? ...

Why?... no, Quick!
I don't know.

I'll tell you then! ... It's because they're brown! ...

And you made me waste my time just to tell me something stupid and useless like that!

Come, Flupke, is it absolutely necessary for you to go?

Ab-so-lu-tely necessary!

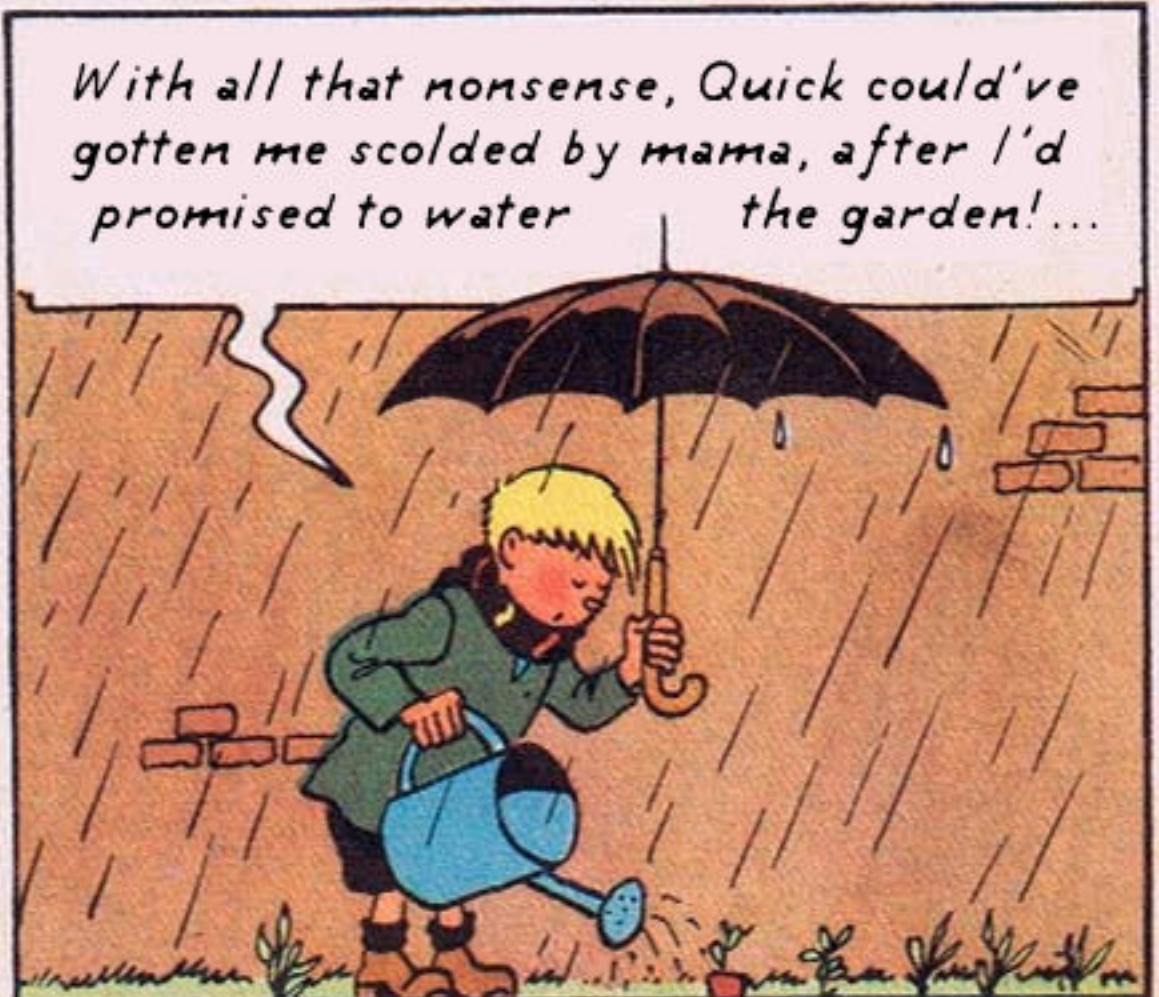

Goodbye, Quick!

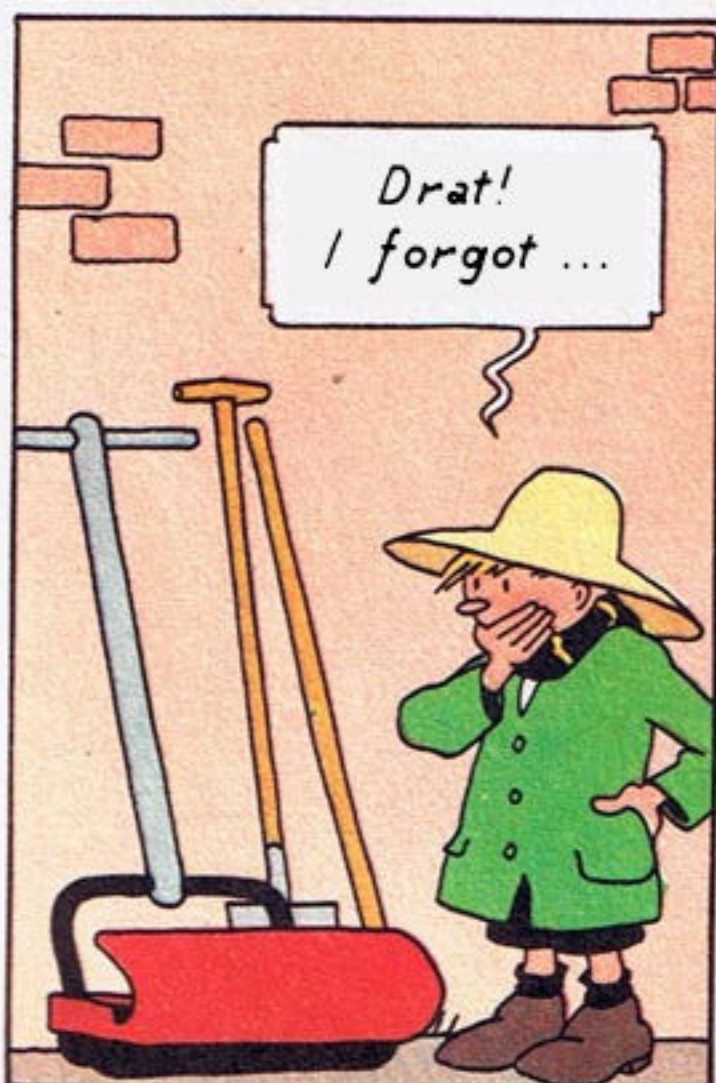

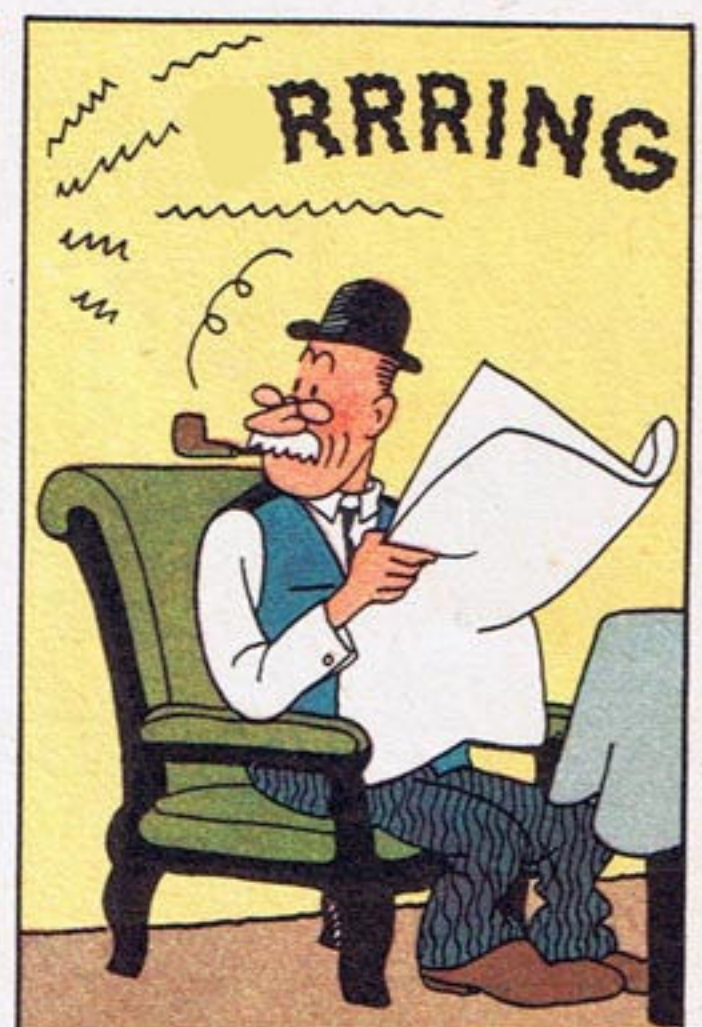

Goodbye, Flupke!

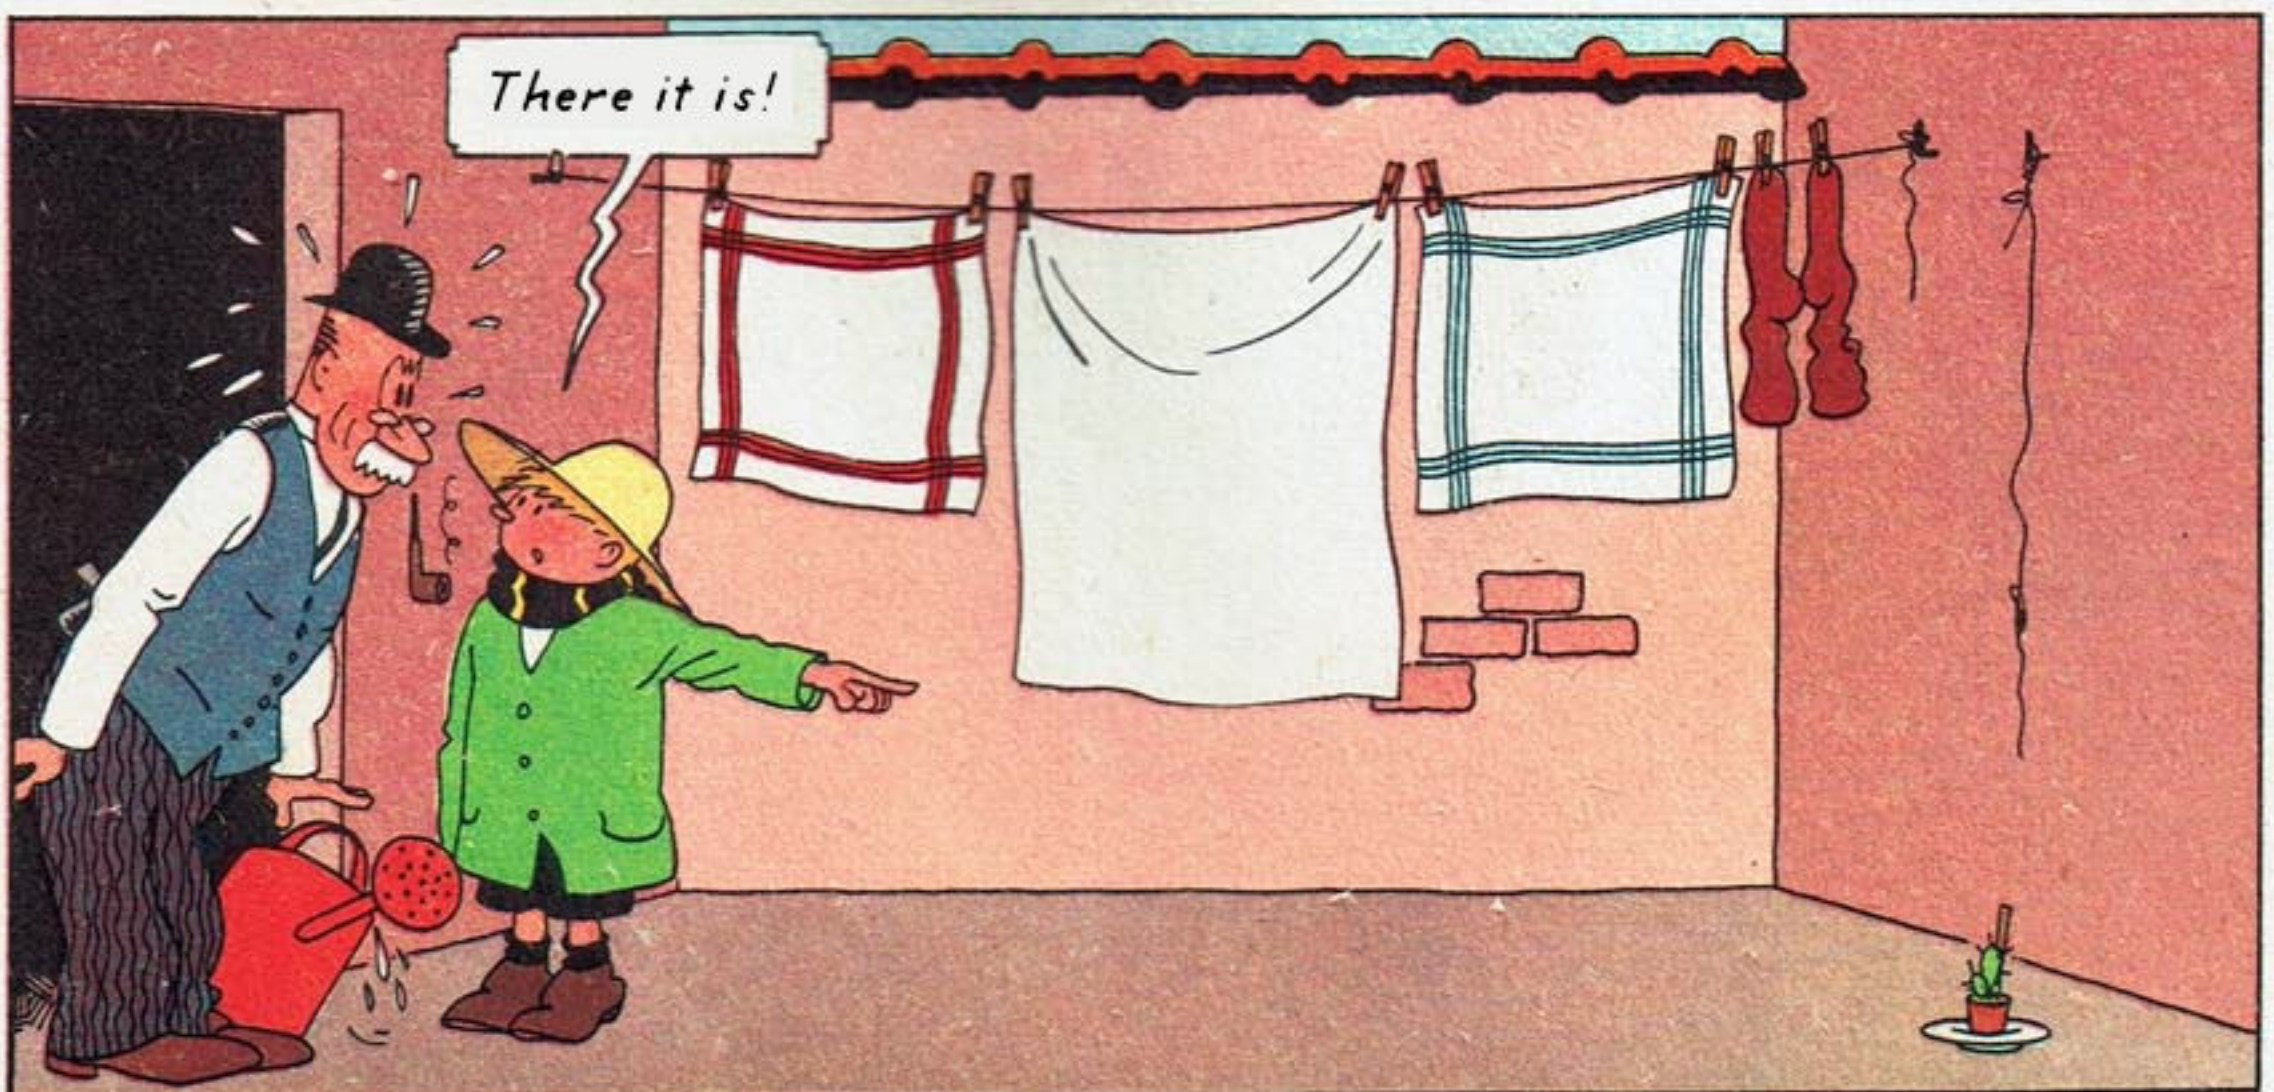

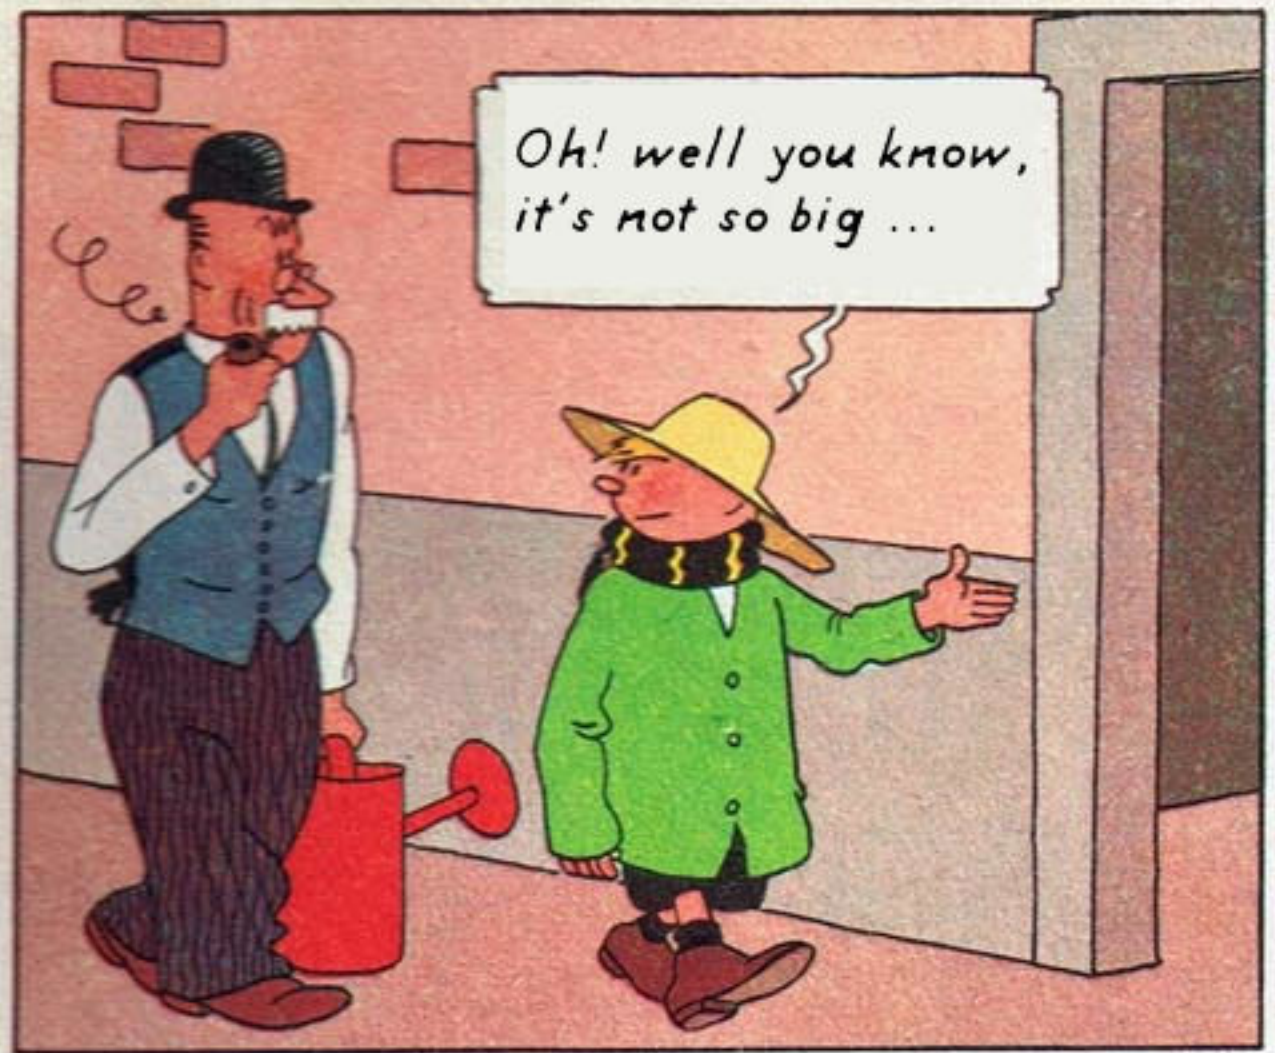

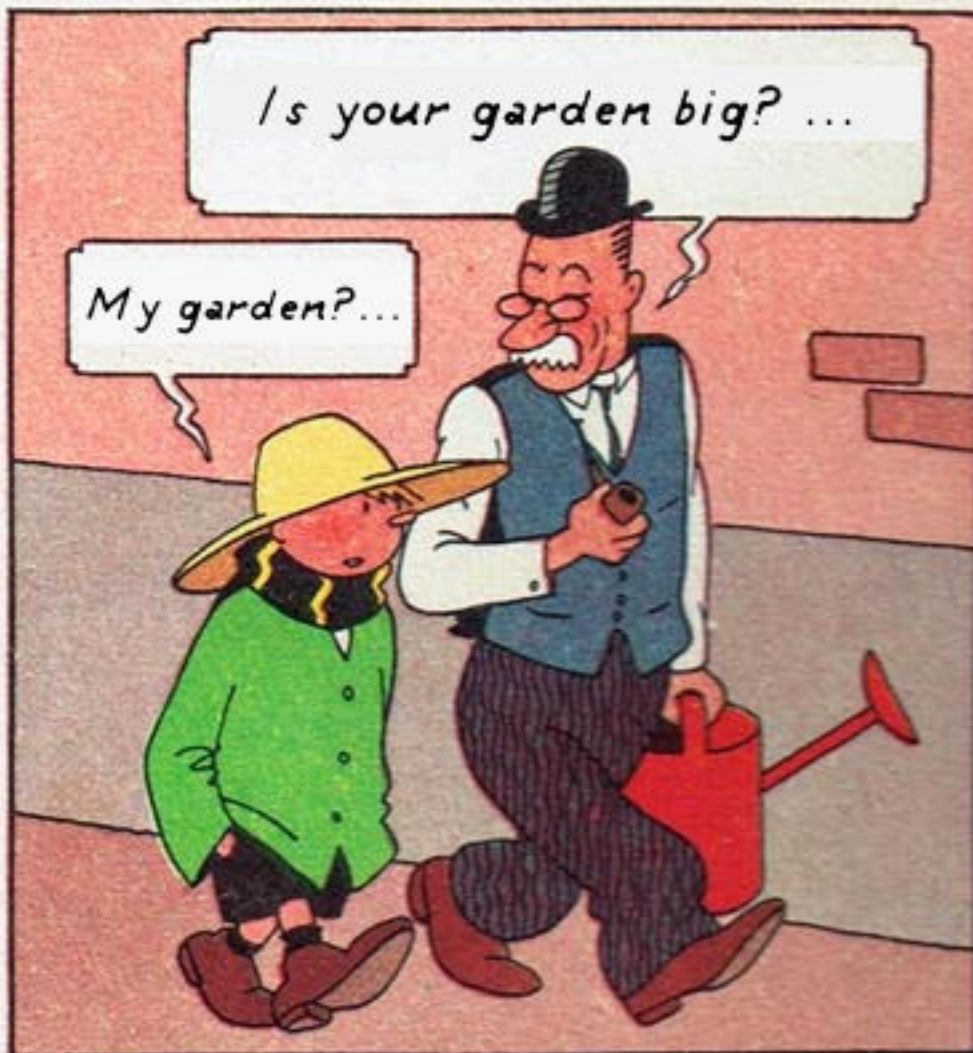

With all that nonsense, Quick could've gotten me scolded by mama, after I'd promised to water the garden!...

Heavens, I forgot to give the letter to the gentleman!

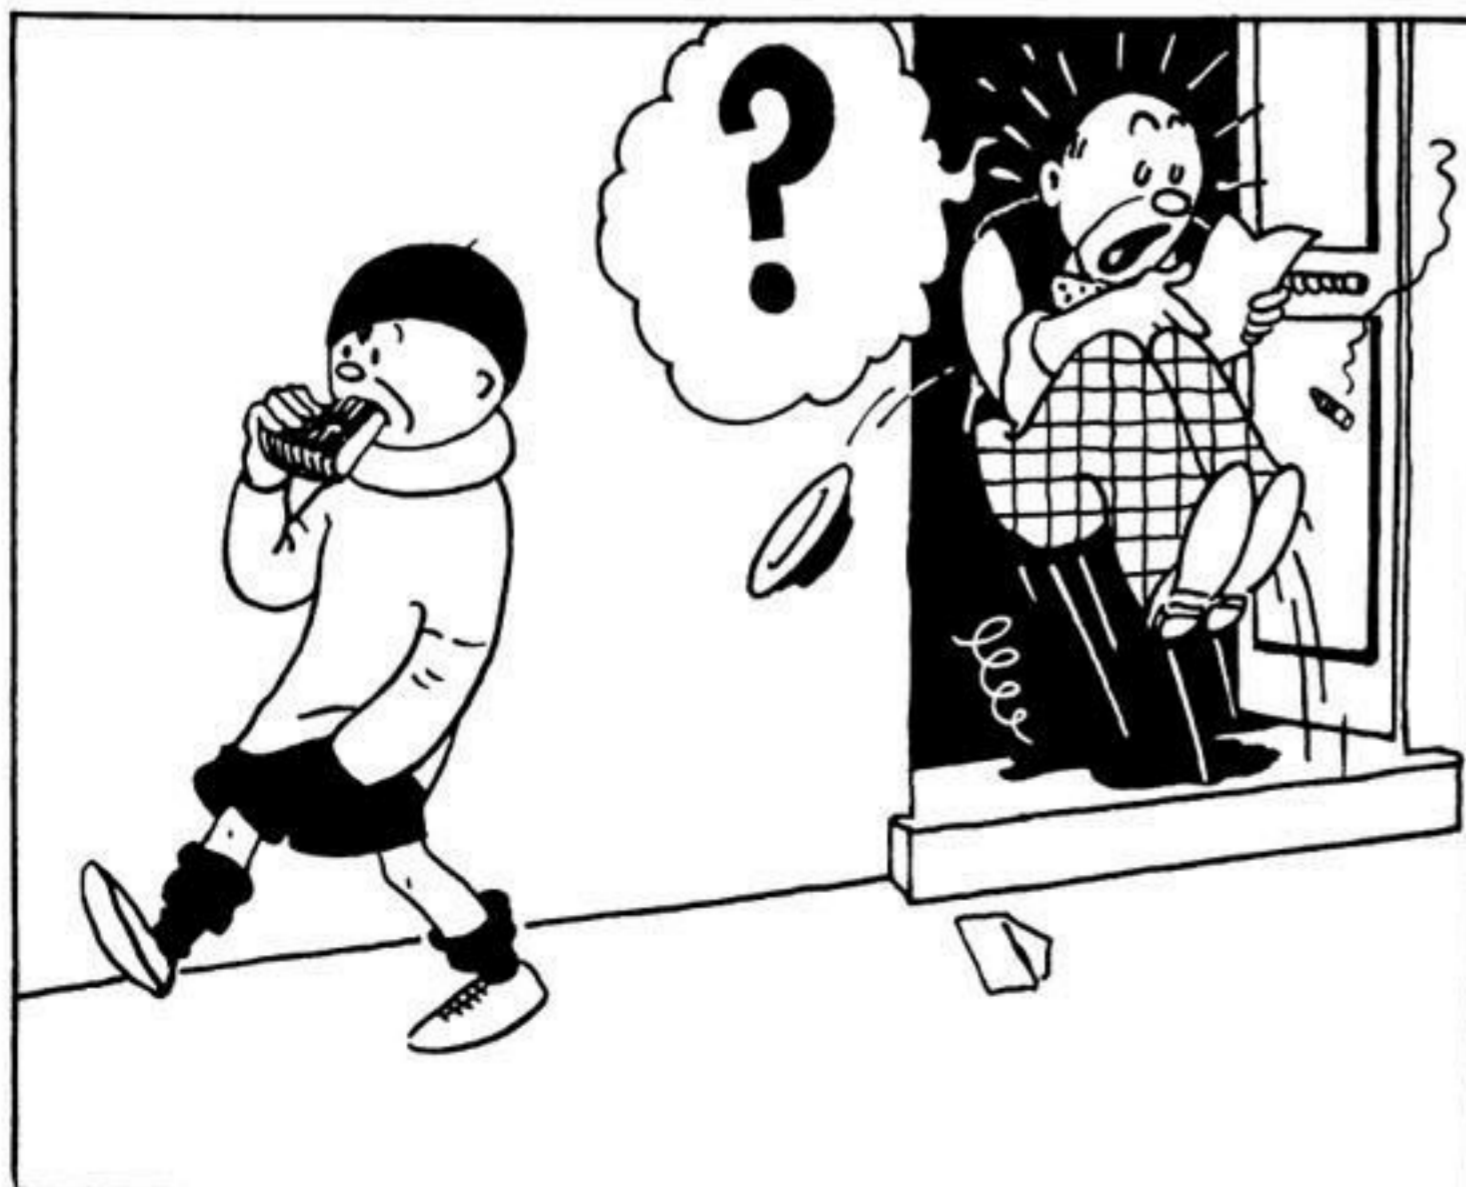

You're a good little man!

Sir, the gentleman also gave me a letter. But I forgot

Here's a piece of tart as a reward for your errand

Thanks, sir!

Mister veterinarian,
I send you one
of my most prized
ducks.

Could you tell
me what disease he's
caught?

QUICK THE CARPENTER

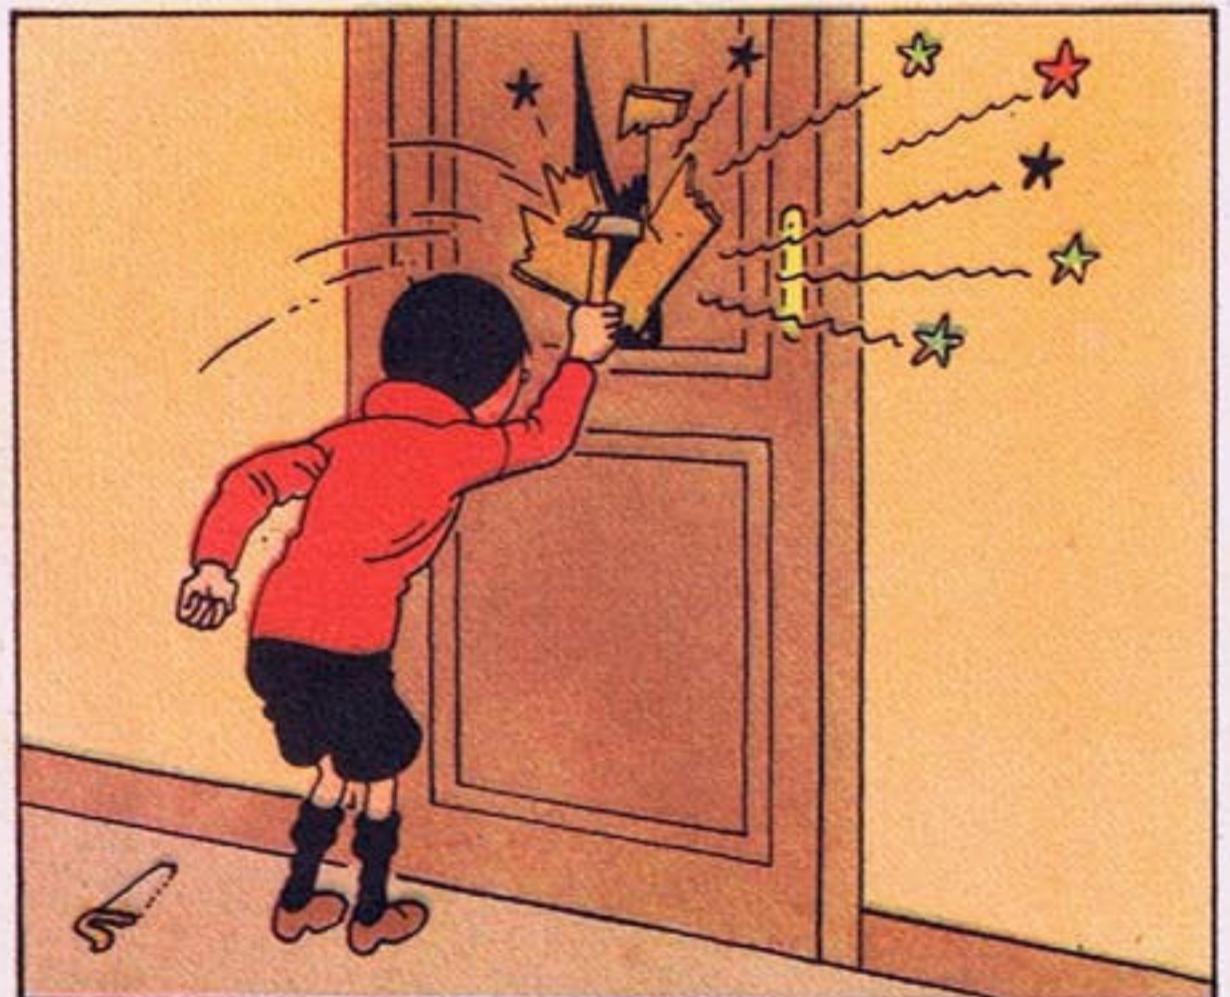

It really is nice!... Uncle Jules has just brought me all these tools for my birthday!

There is a way to make useful things with these tools. This door is cracked, I'll fix it up!

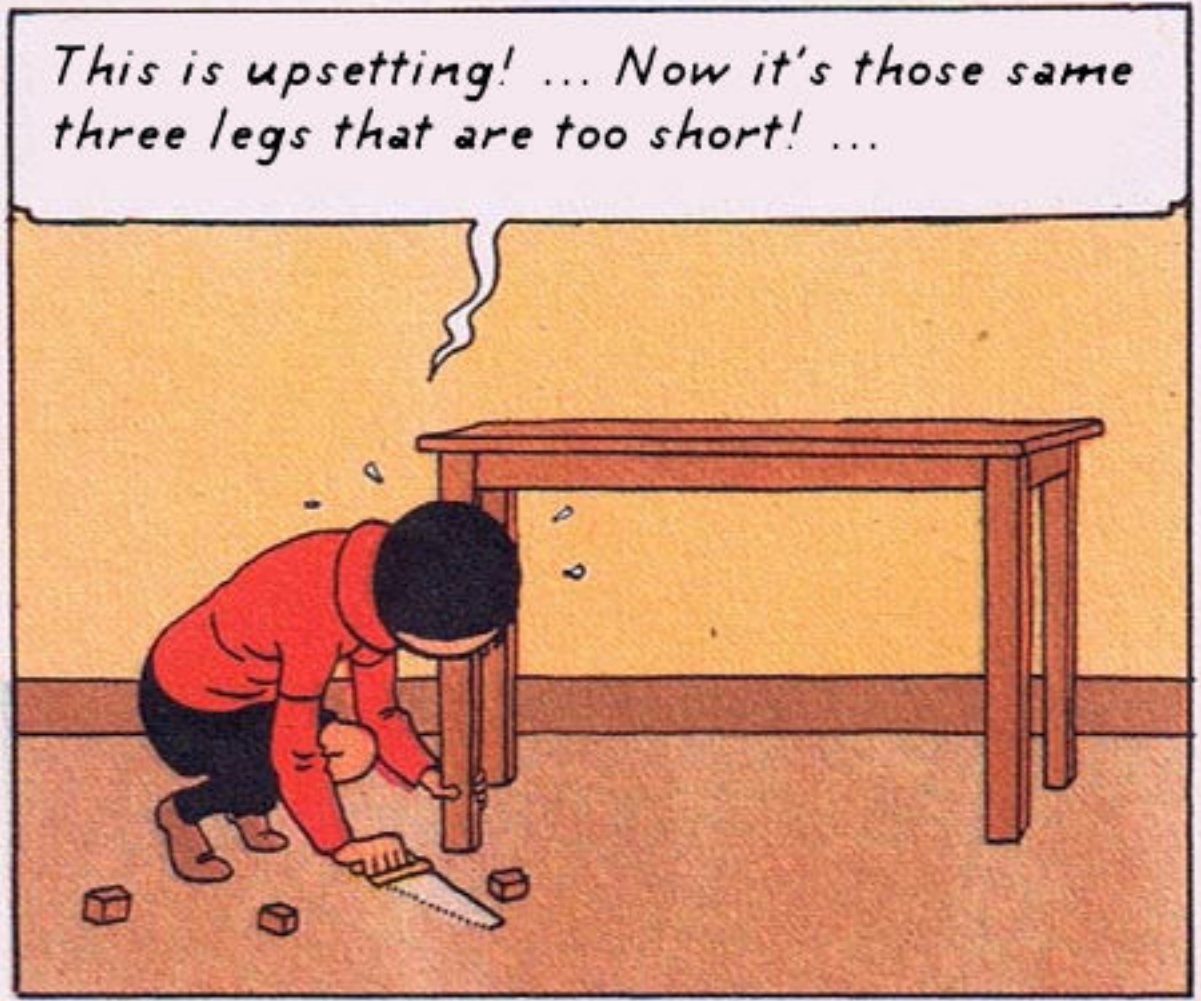

A small piece of wood to hide this slot and it'll be gone.

Hello? ... Hello? ... One of the legs of the table is shorter than the others. Or rather, I'm wrong, this table has three legs that are too long! ...

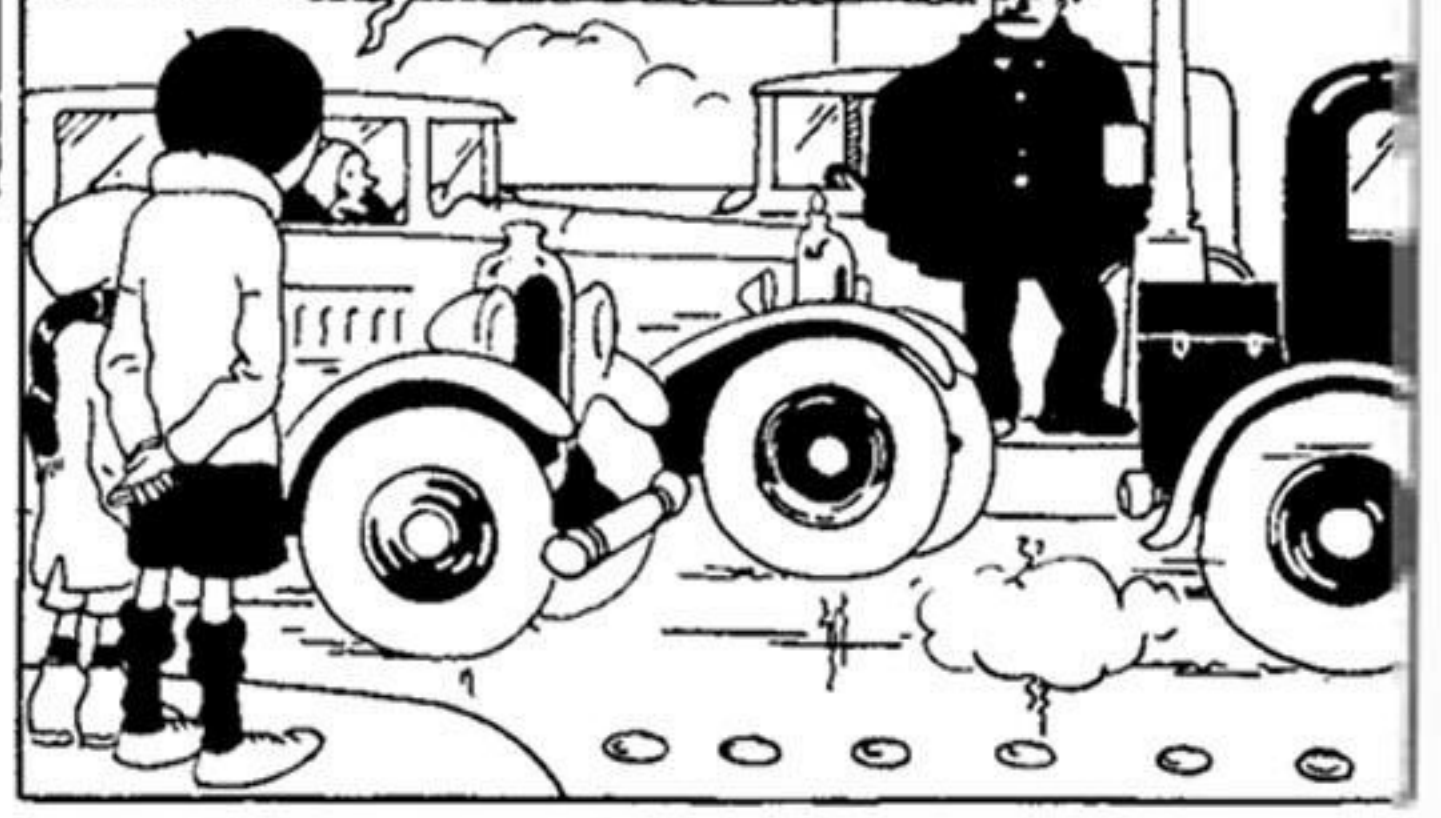

QUICK THE CARPENTER

So it's only natural, Flupke, that now we're going to talk on Radio-Belgium. Try to be strange, and be a little smarter than usual! Hurry up, we must be there at half past five.

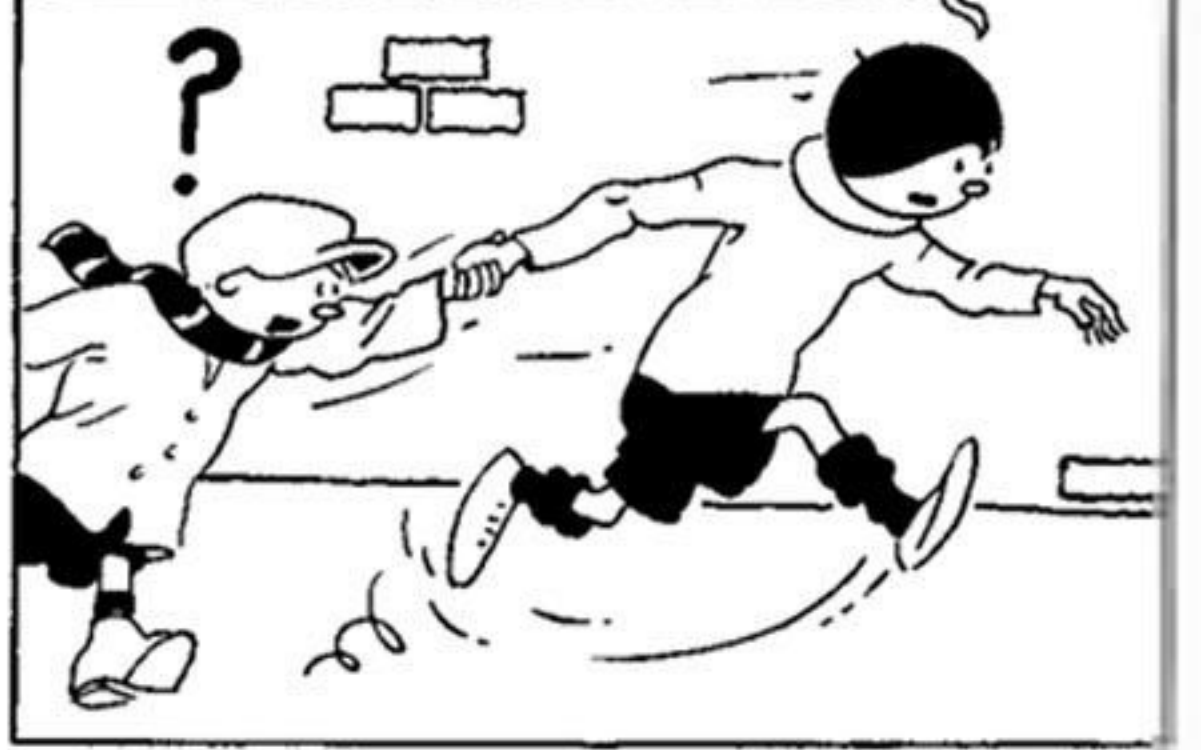

You see, Flupke, how well-regulated the traffic is! But come on, we don't want to get there late

This work is interesting, eh, but they're not going very quickly: we've been watching them for half an hour and they've hardly gotten anything done!

Heavens! It's five twenty! ... We're going to be late!

We'll be late
You see Quick "There's no point running..... We must start on time, the hare.....and... ..the crow are a witness

Radio-Belgium?.... Down there, to the left, is an elevator, go to the fourth floor ...

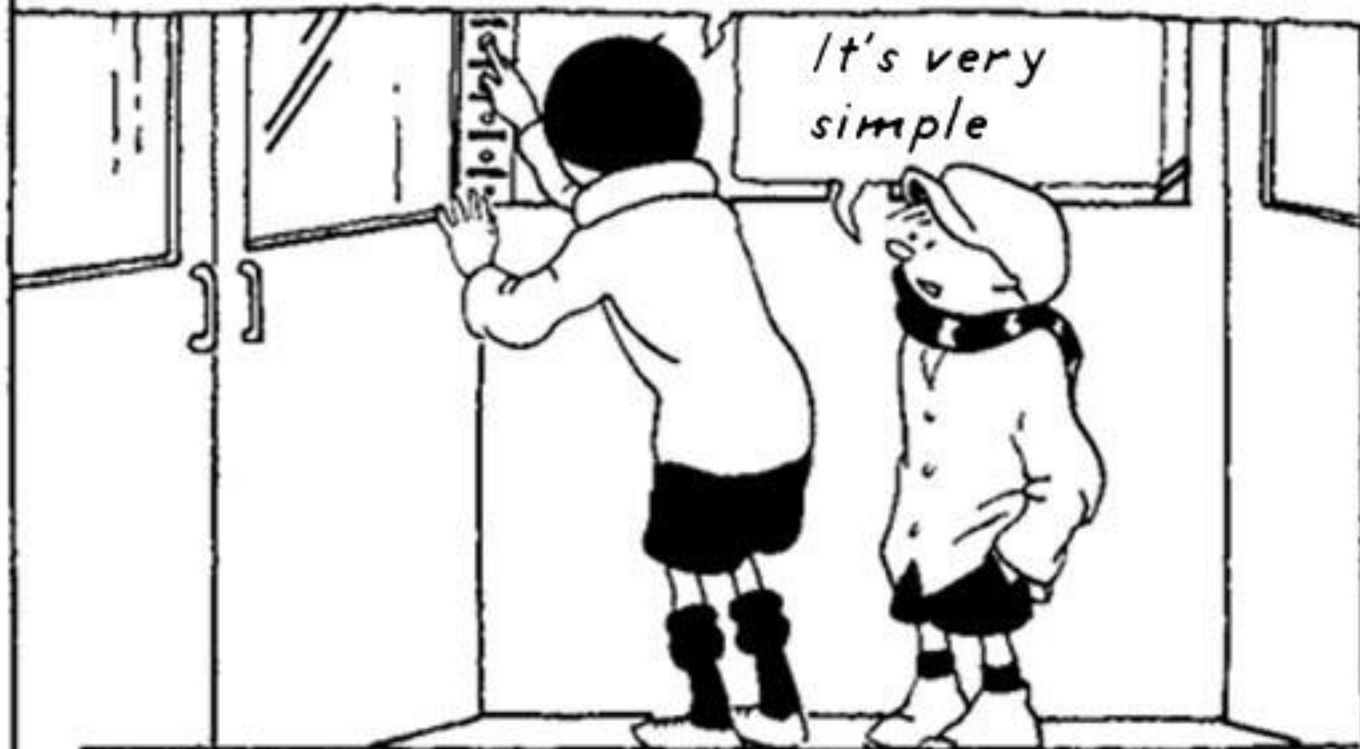

Nice! ... We get to run the elevator ourself

This will be great fun

That's it!... We're off!... Ah! dear old Flupke, this is the job I'd love to have: operating a "lift" in a grand hotel. You see how easy it is

It's very simple

I'm going to make a complaint... That elevator has been going up and down for 45 minutes but never stops!... It's scandalous!

And you see, Flupke, now we go down

It's funny

Outrageous

Goodnes me what about our meeting with Radio Belgium? ...

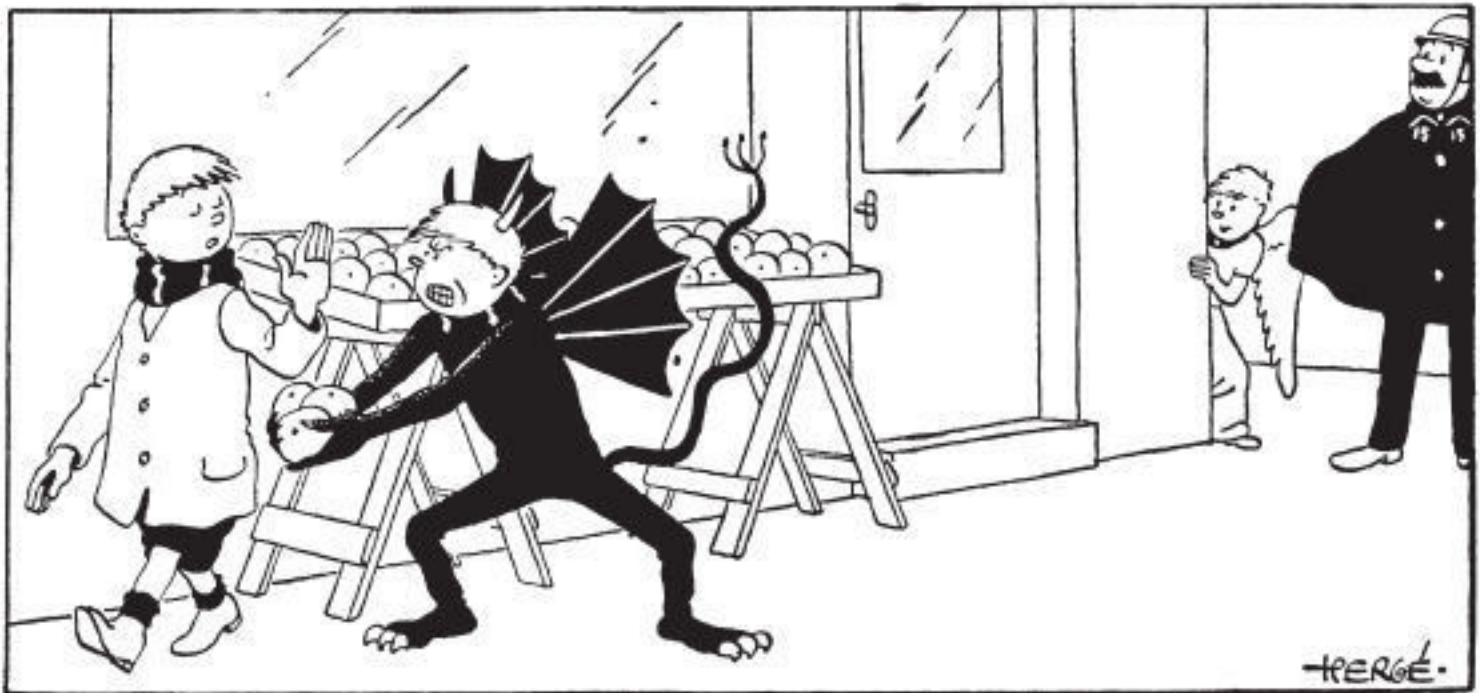

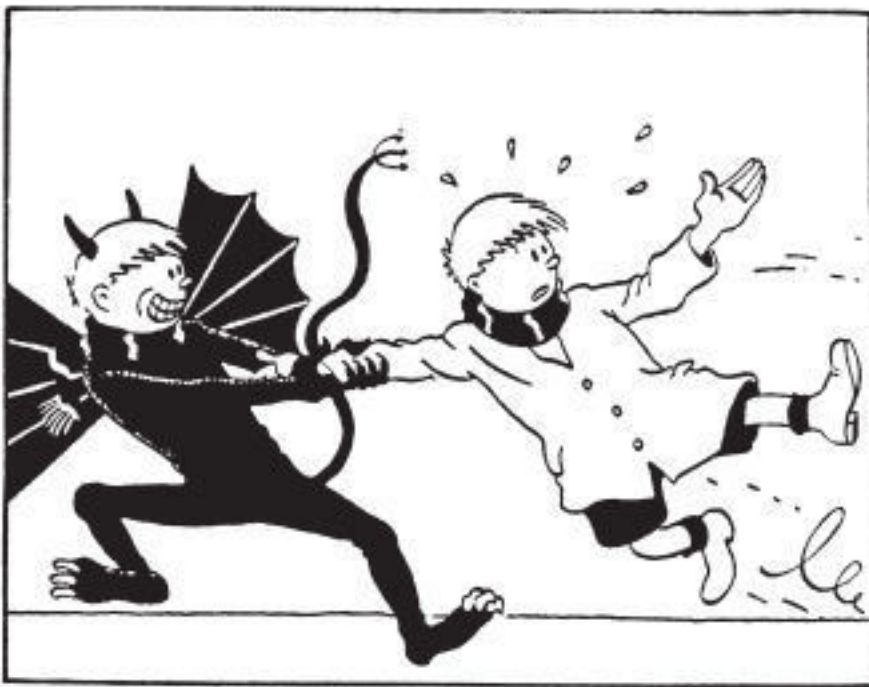

And now you get here! It's seven o'clock! ... The time for your show is over! ... Go, quick, turn around and try to be on time next Friday

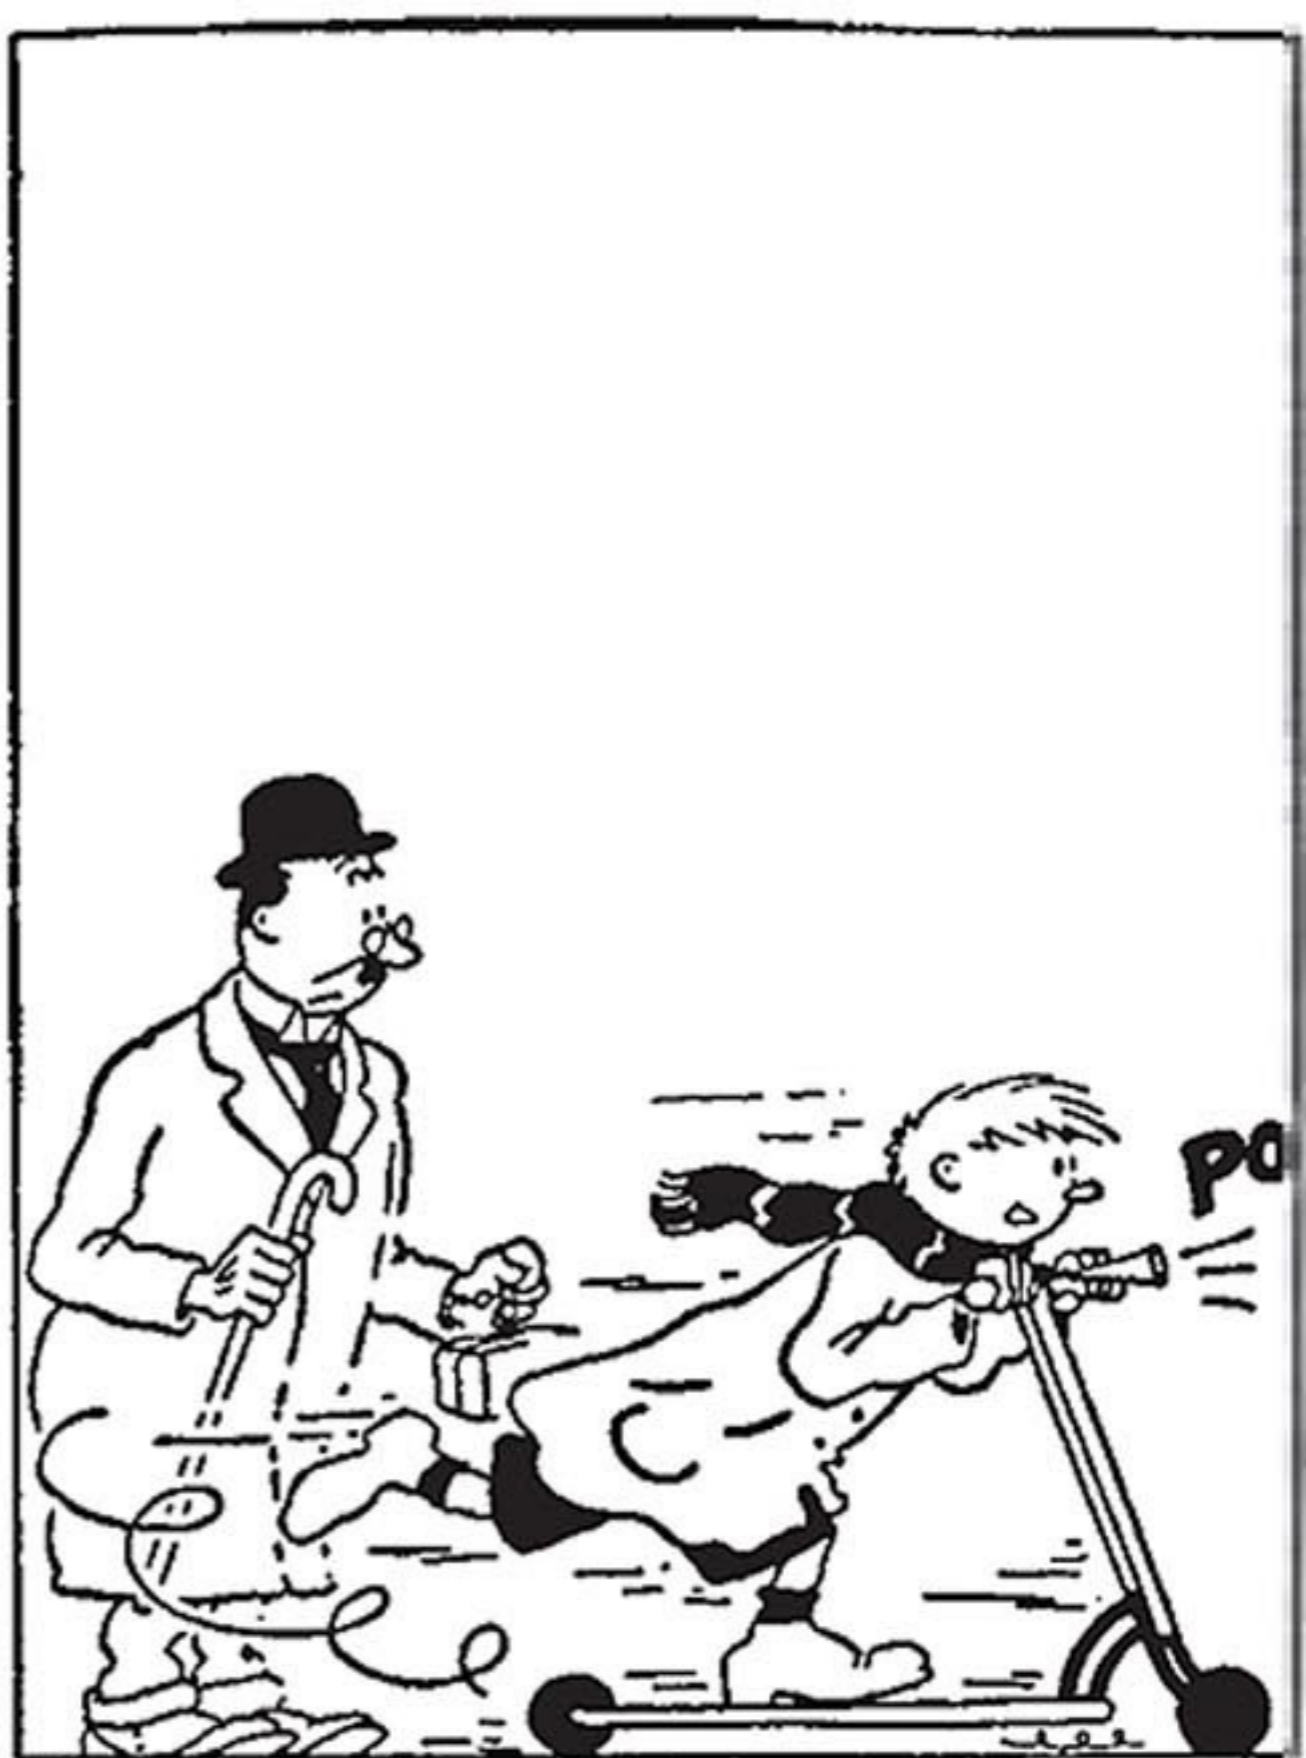

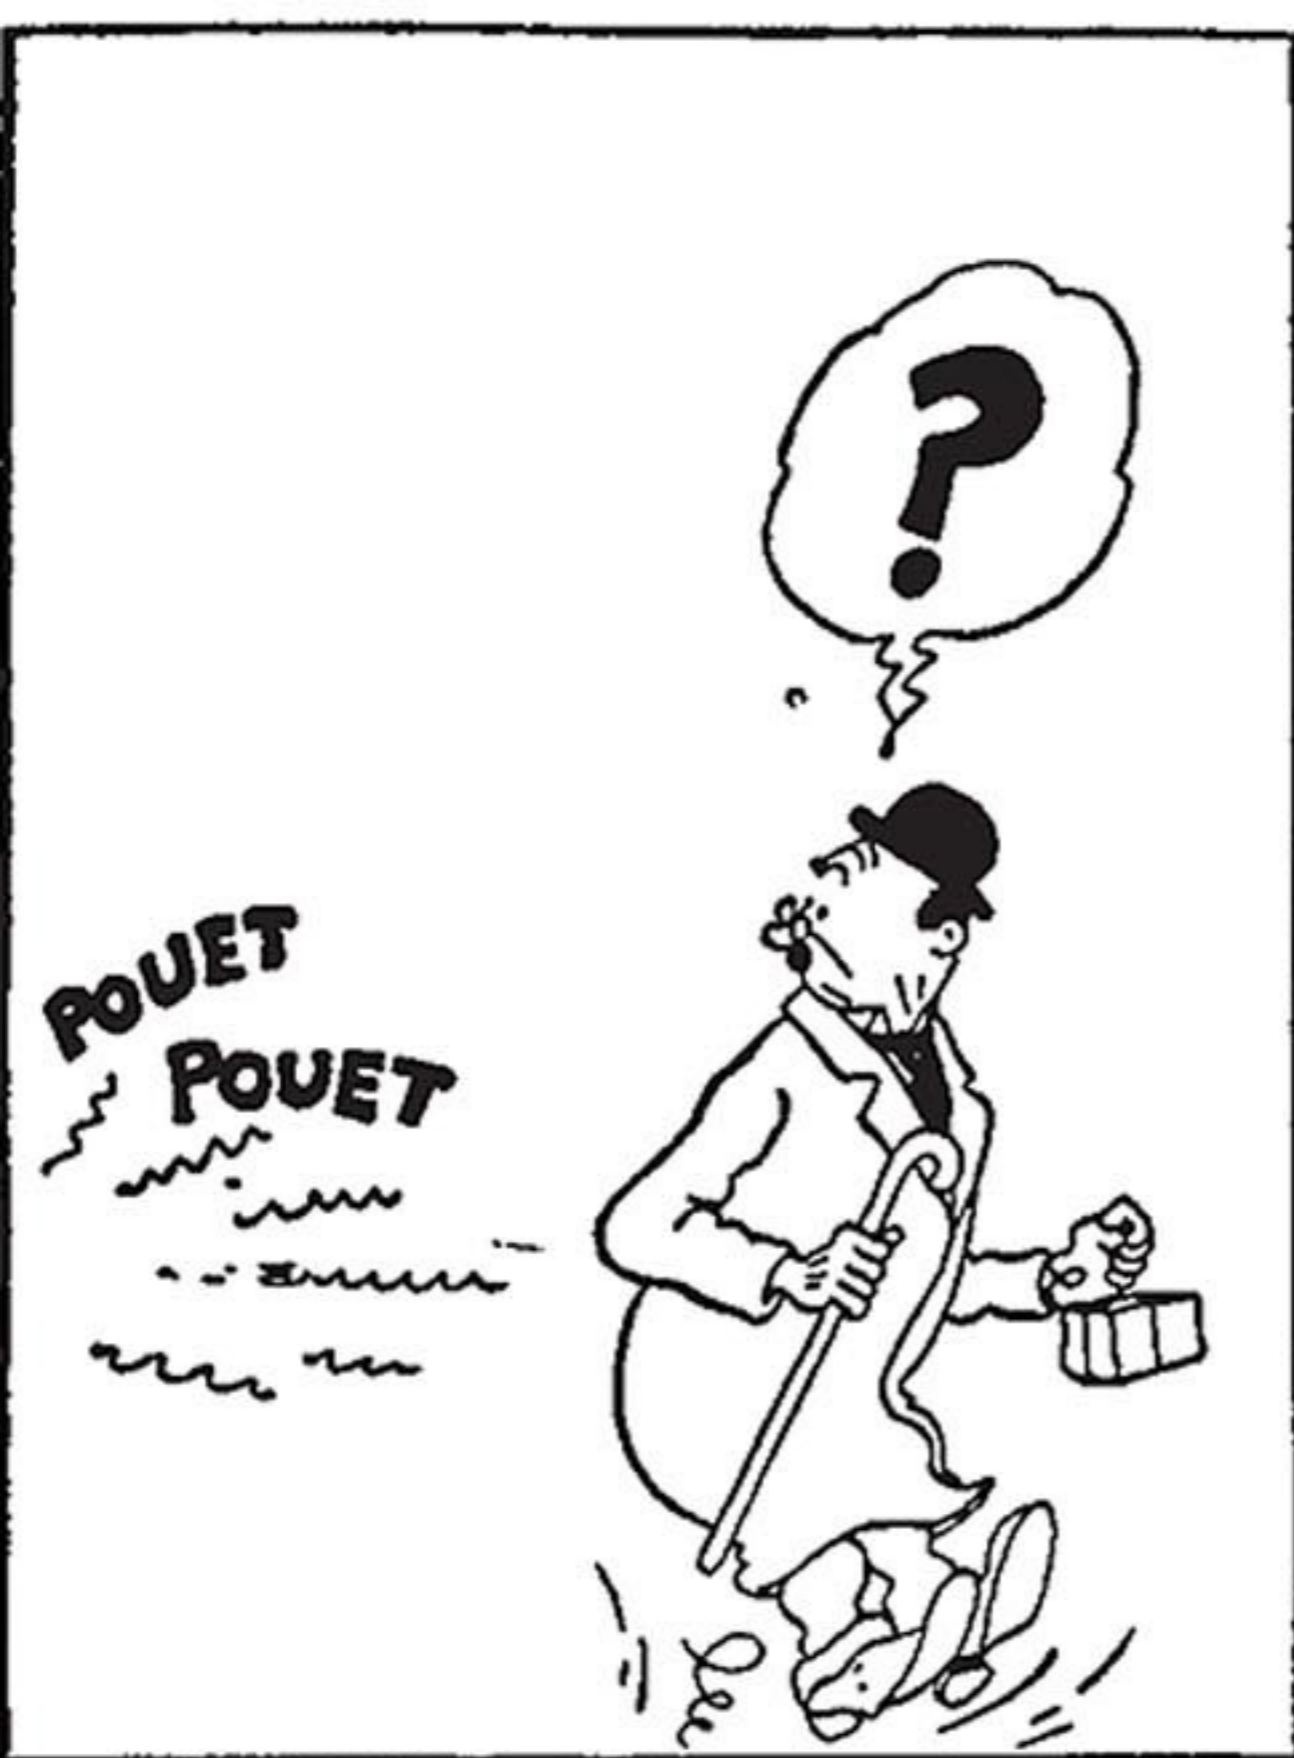

RADIO-BELGIUM
RING THEN ENTER

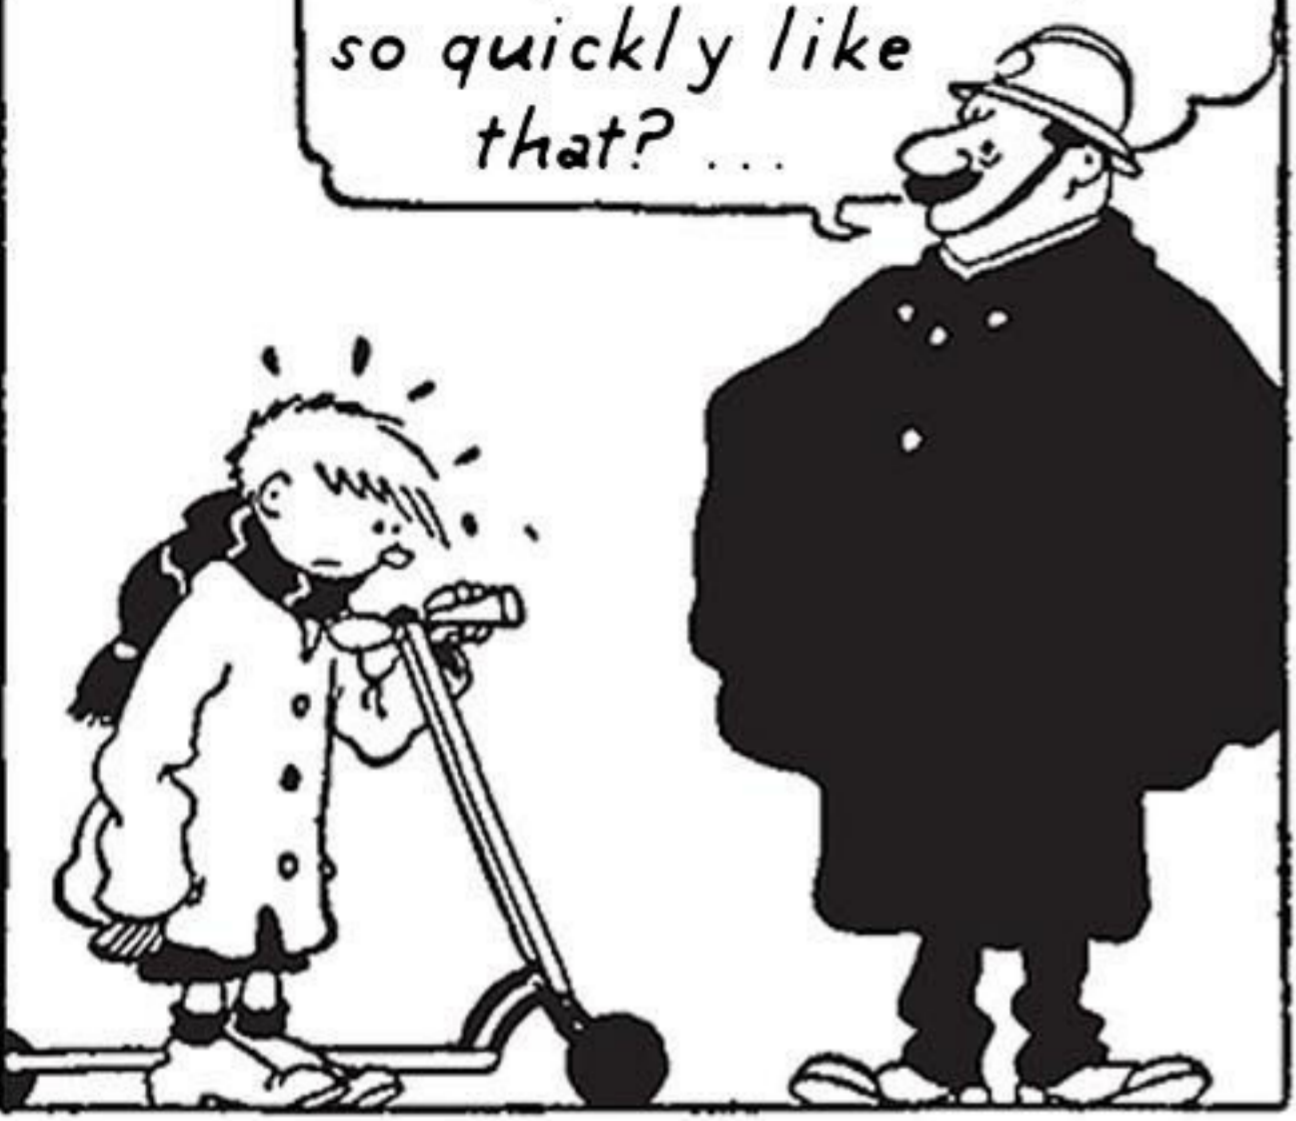

REINFORCER

You deserve a fine, fiske!... Was that polite?... To speed so quickly like that? ...

The sidewalk is not made for speeding so fast, fiske...

I'm guilty!...

What's the matter?...

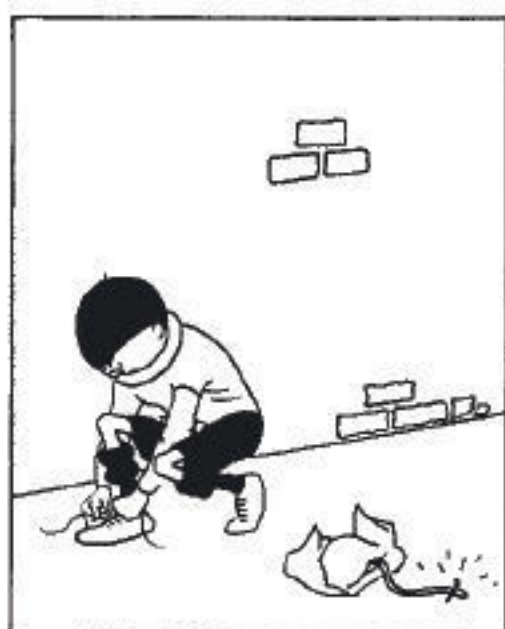

Wait, Mr. Policeman!.. Could you ...?

Between us, Mr. Policeman, could you give me some gasoline?... It's for my lighter!...

THE EELS

Ugh! Come on, ugly beast, quickly get back in your package and try to stay smart like your siblings!

No luck! After the car, the tram went over top of my eels! ... How do I get them together now?... A street sweeper?... I'll ask for her broom!..

I definitely don't think that all these successive squashings are recommended

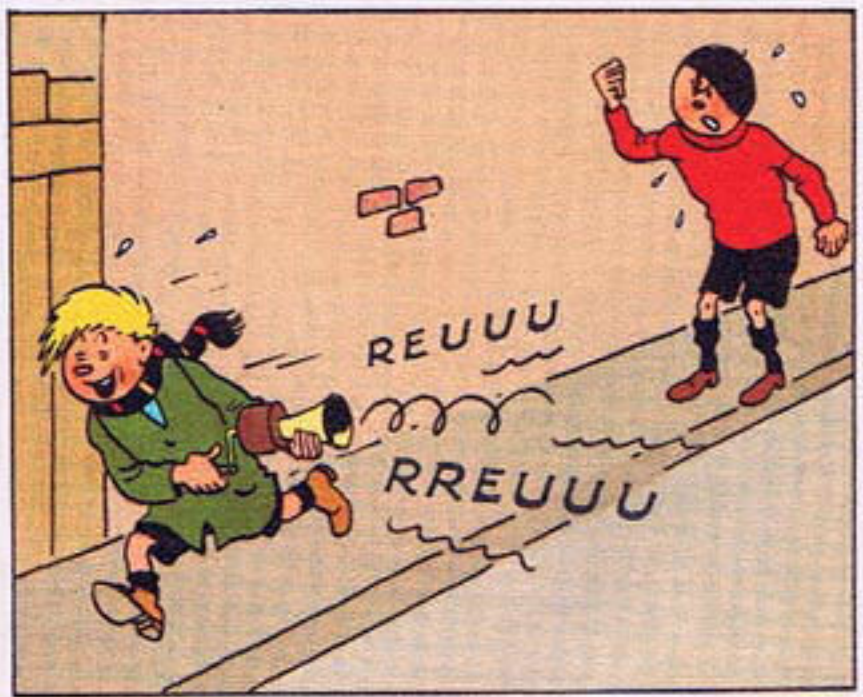

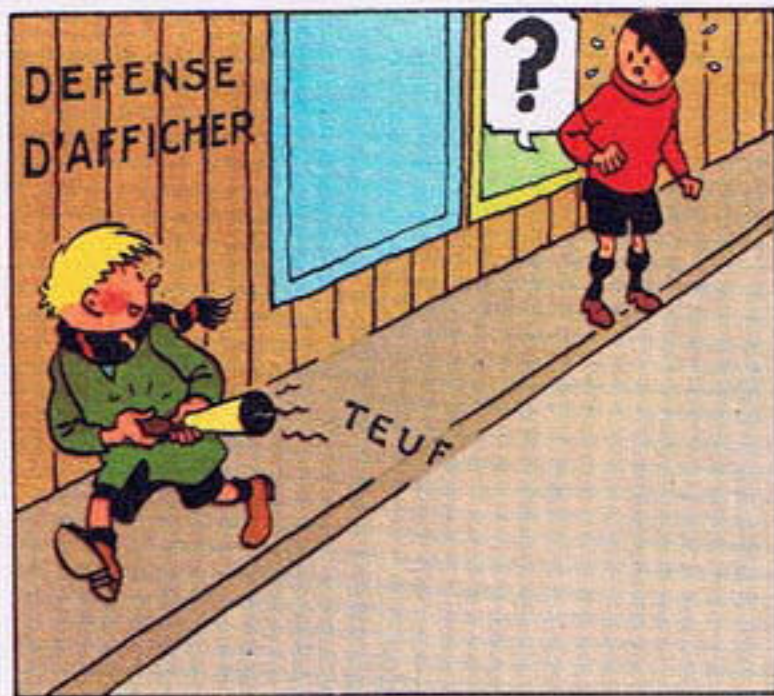

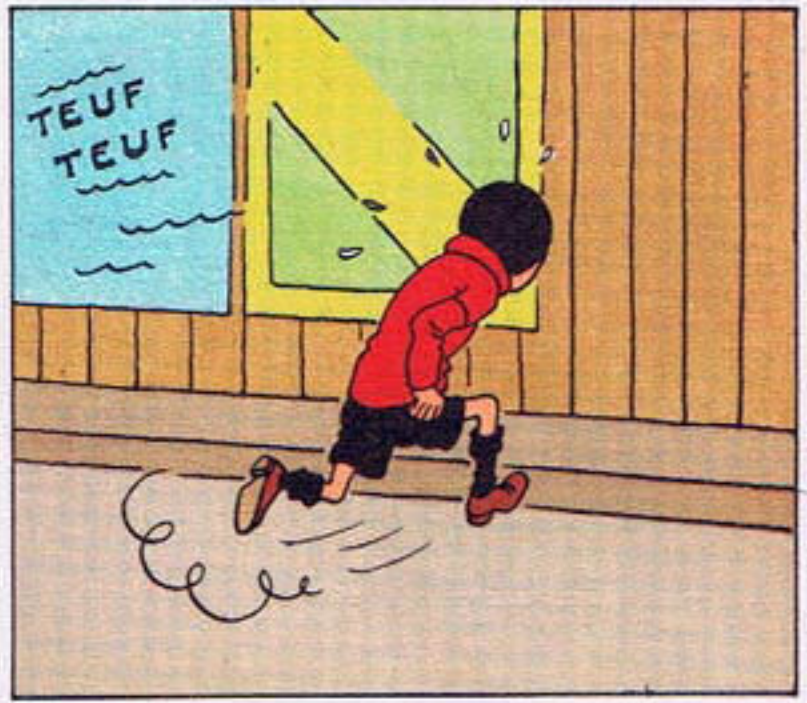

That? Eels??...

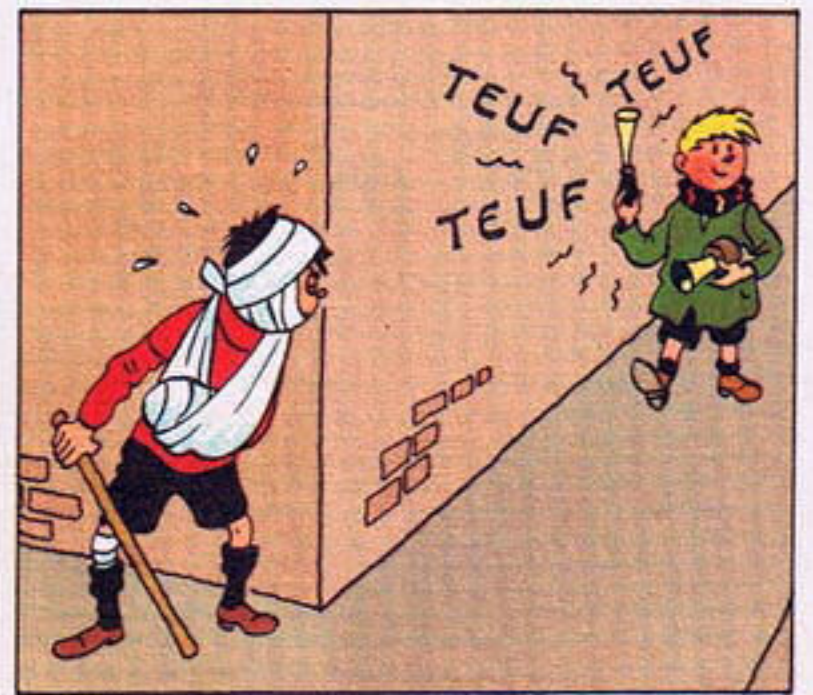

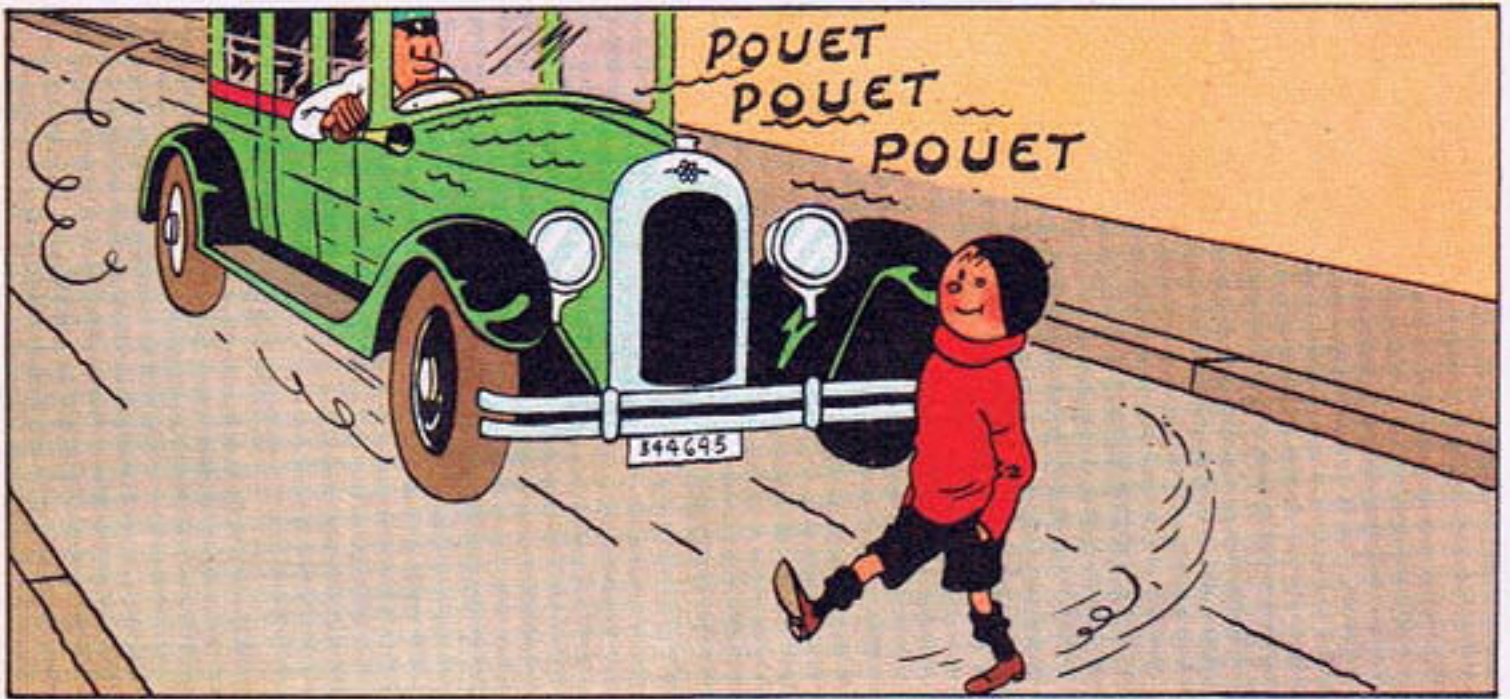

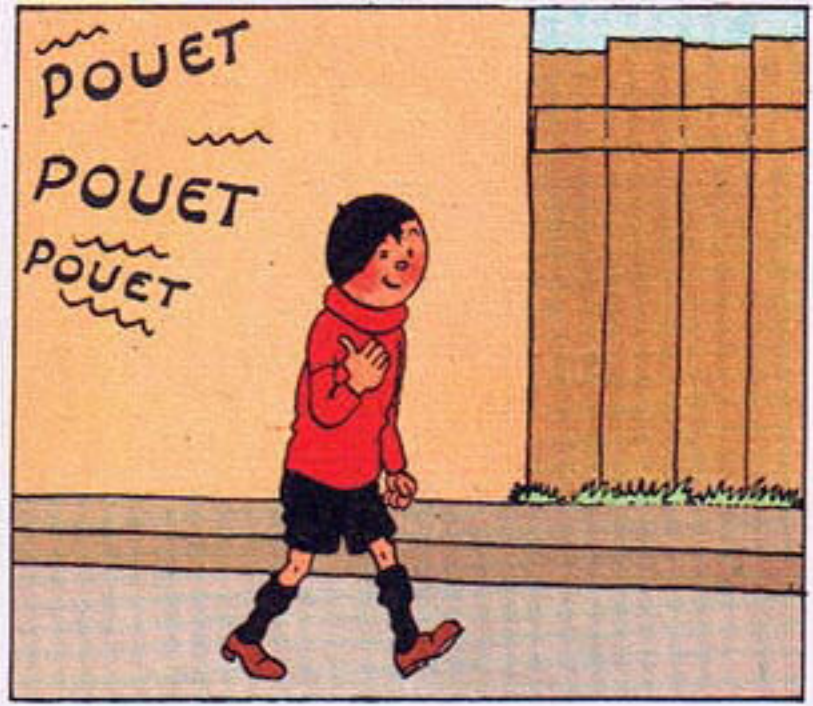

Yes I wonder what they used to catch them

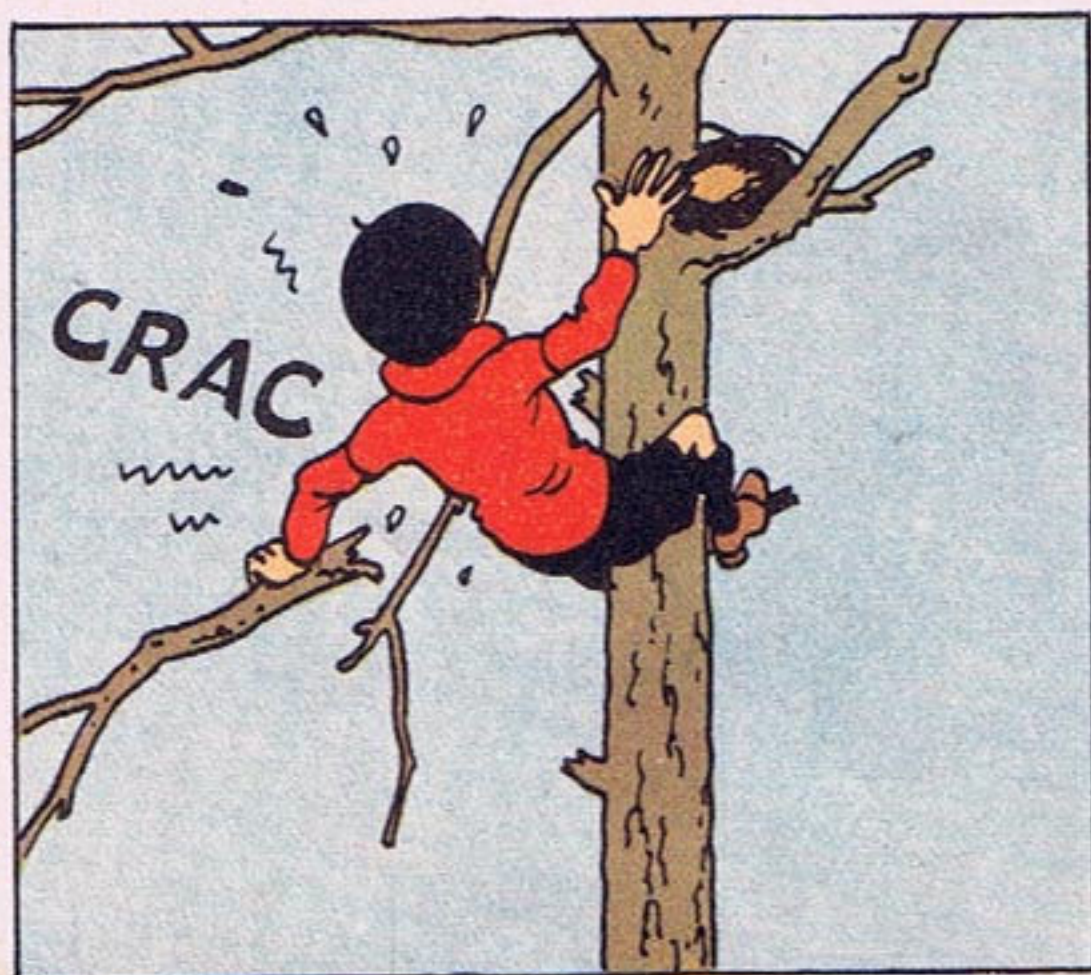

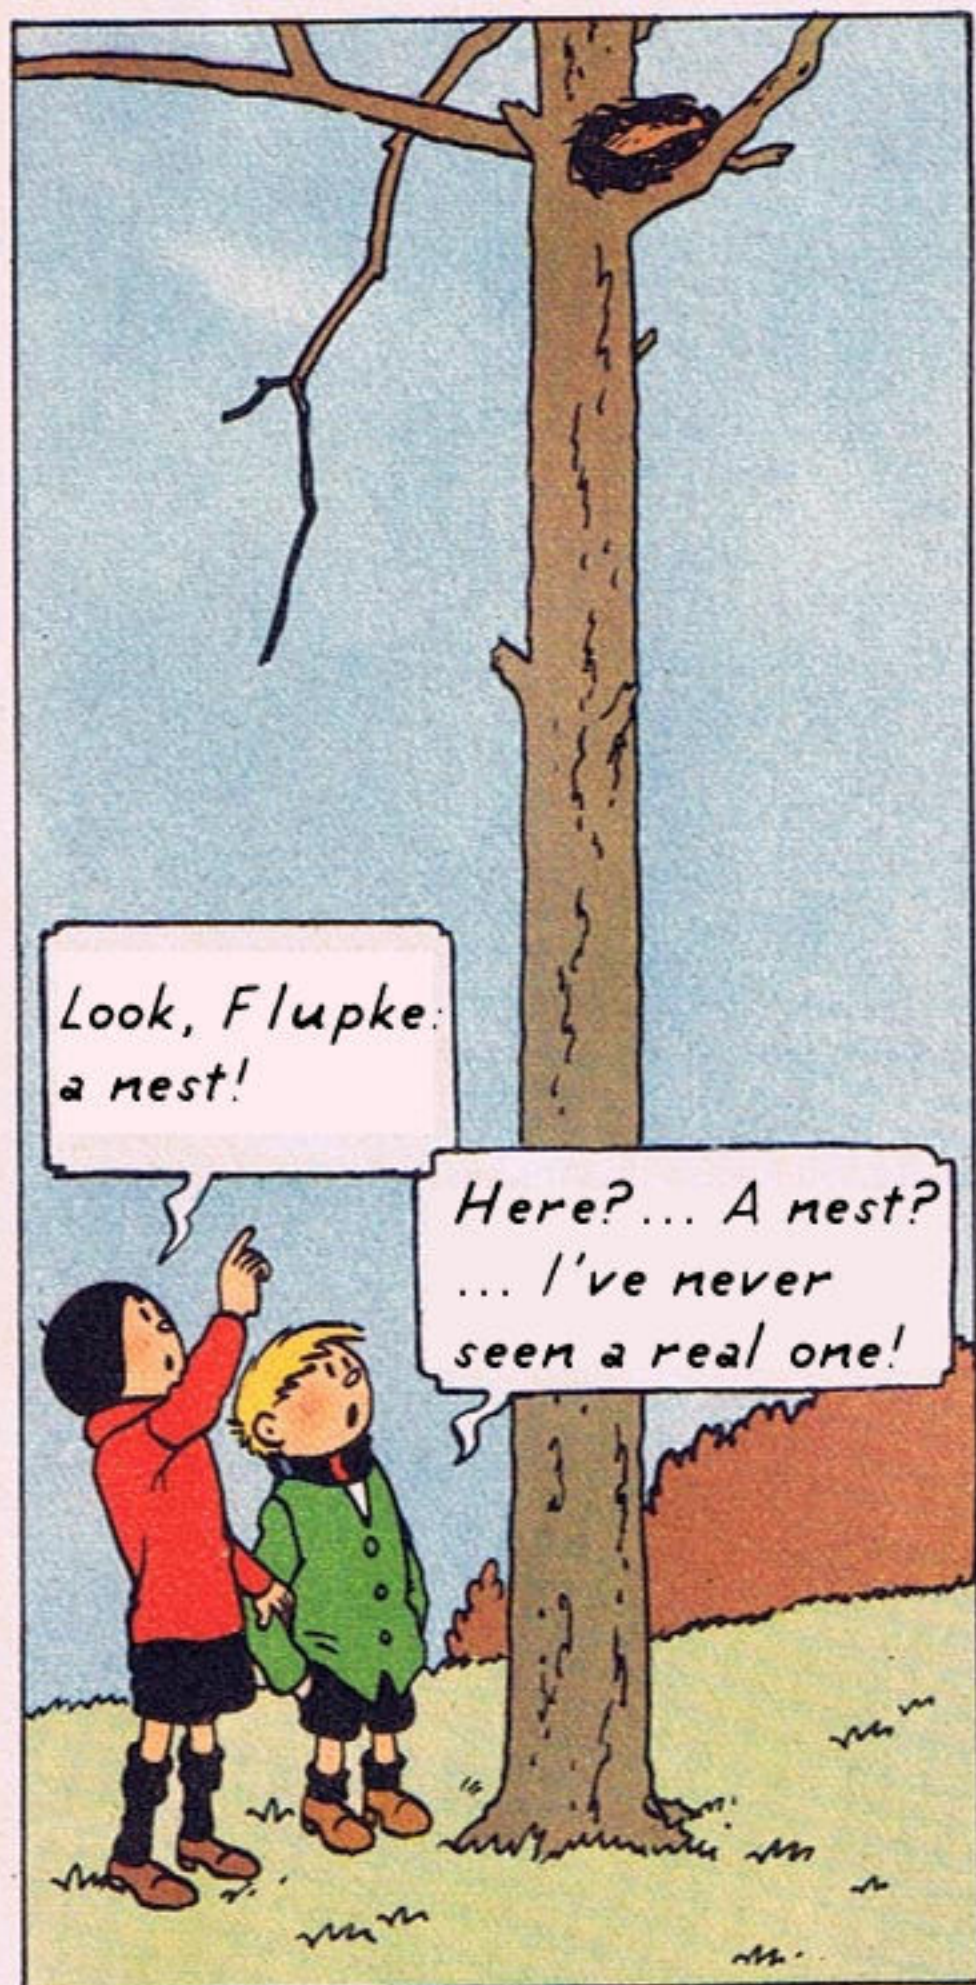

THE KLAXON

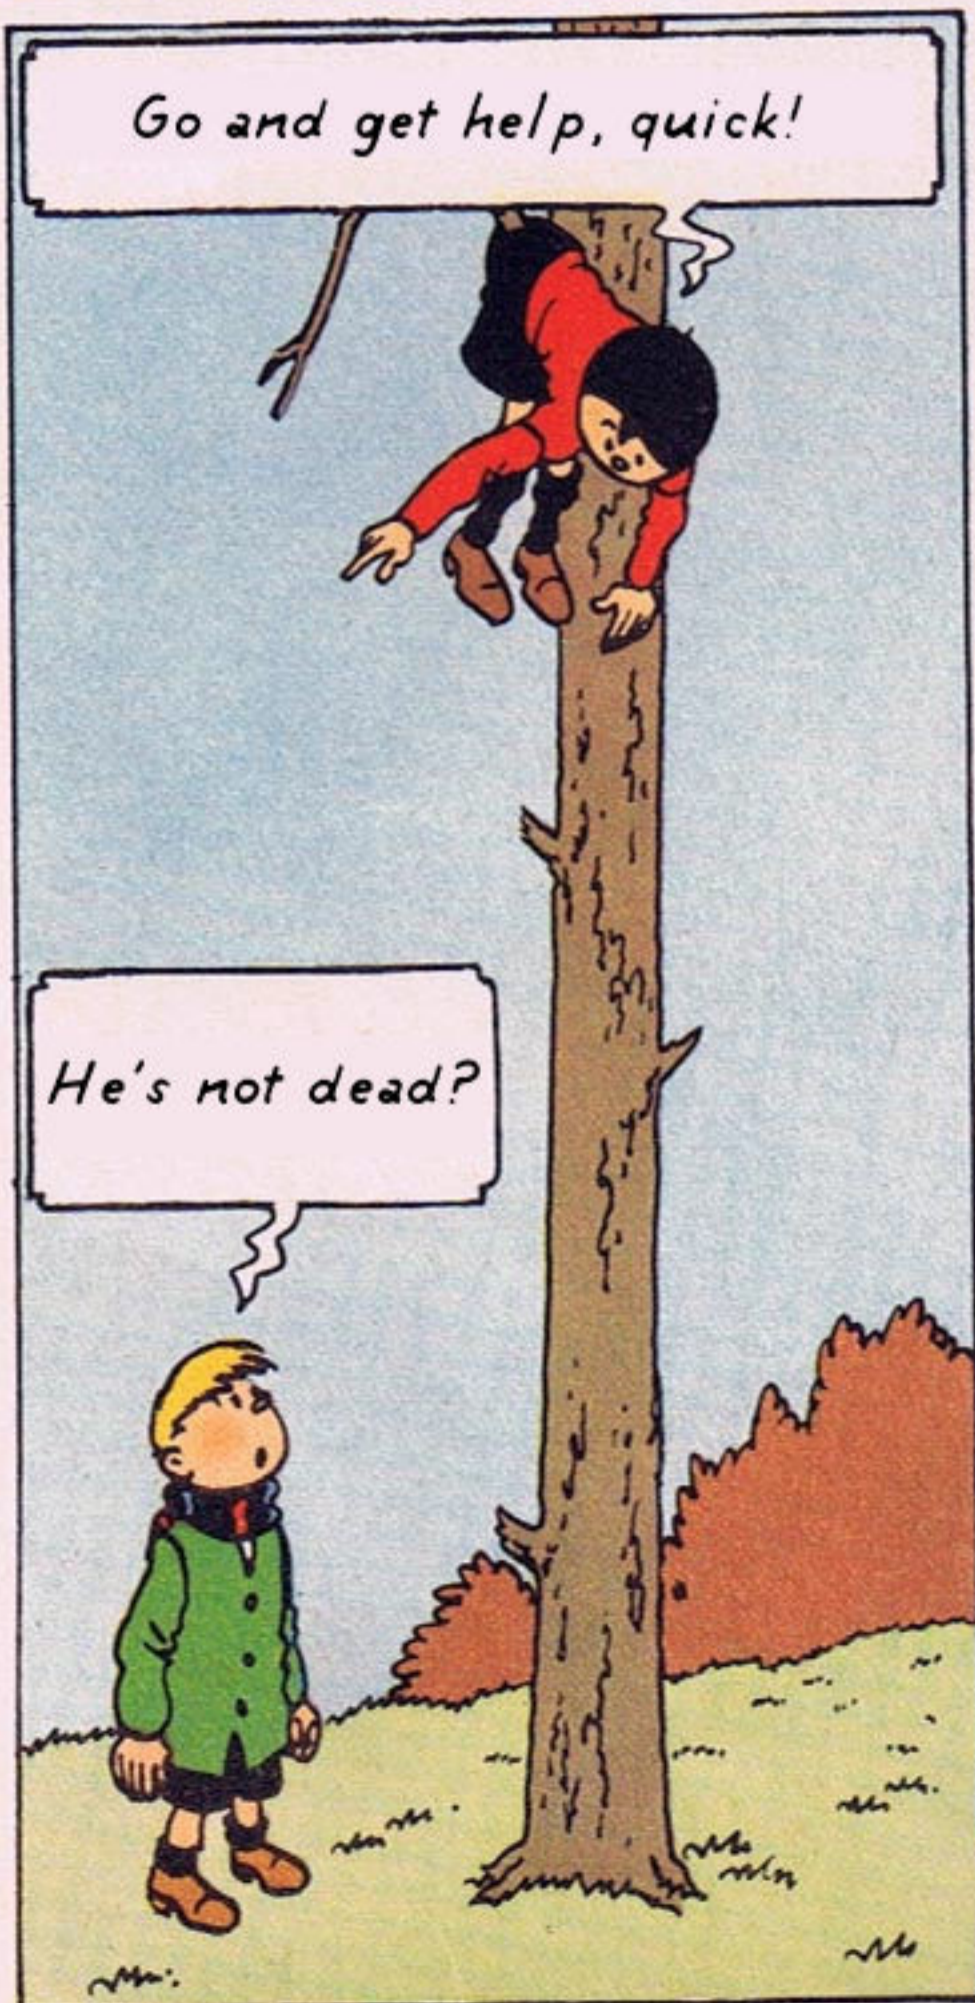

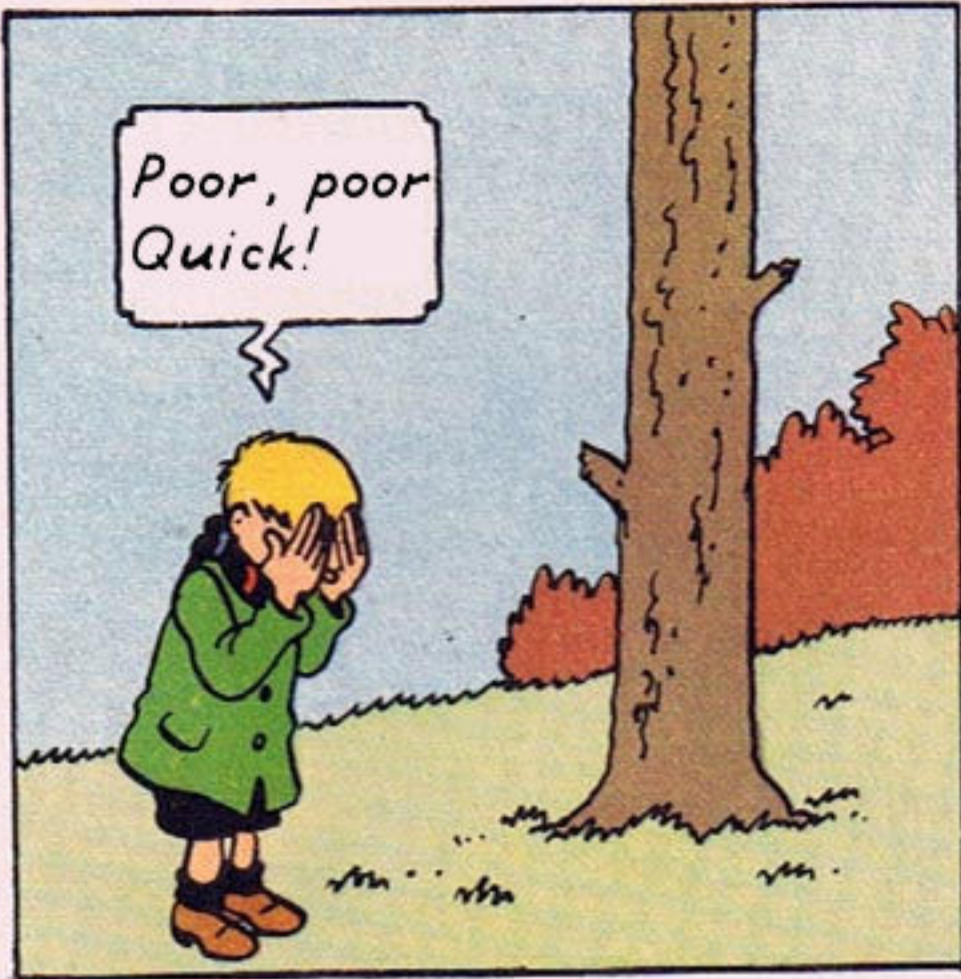

THE KLAXON

THE RIGHT WAY

THE WAY IT'S DONE

Hallo!... Hallo!...
The police station?
... We found an
unexploded shell
in our yard Yes
.... We evacuated
the building site.
... You'll send
technicians?...
Thanks

A shell
!

OH

NO
WALKING
ON THIS
SITE

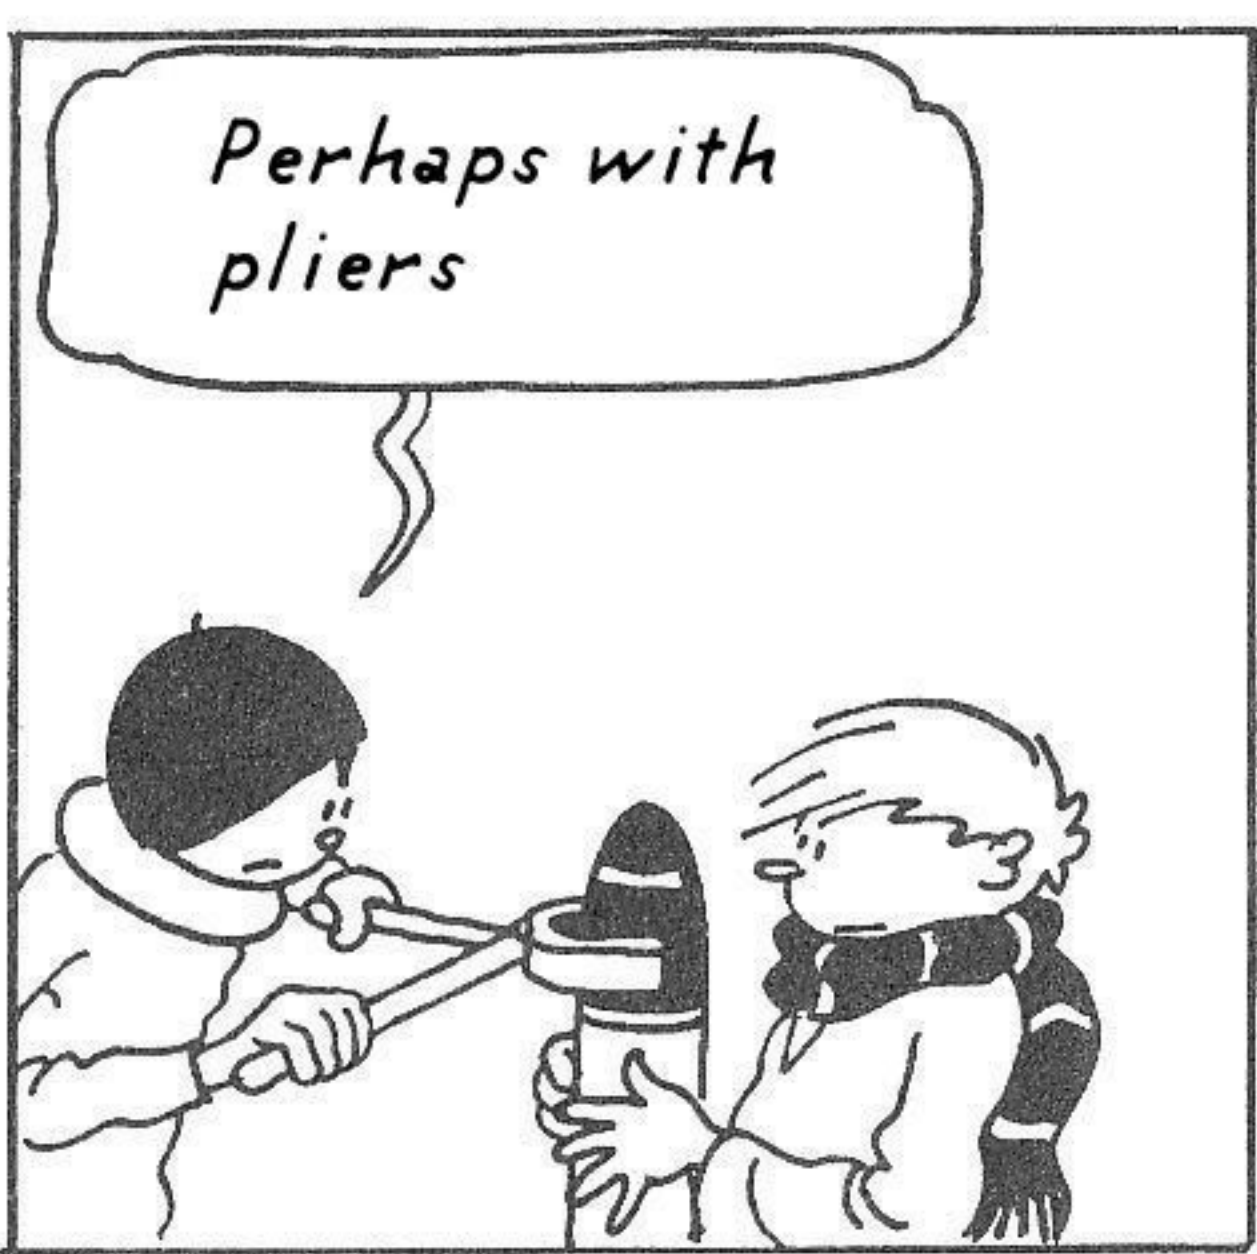

Let's take off the head: my
uncle owns the heads of shells,
they're very nice!

It'll be difficult,
I think!

Perhaps with
pliers

Or by throwing
stones!

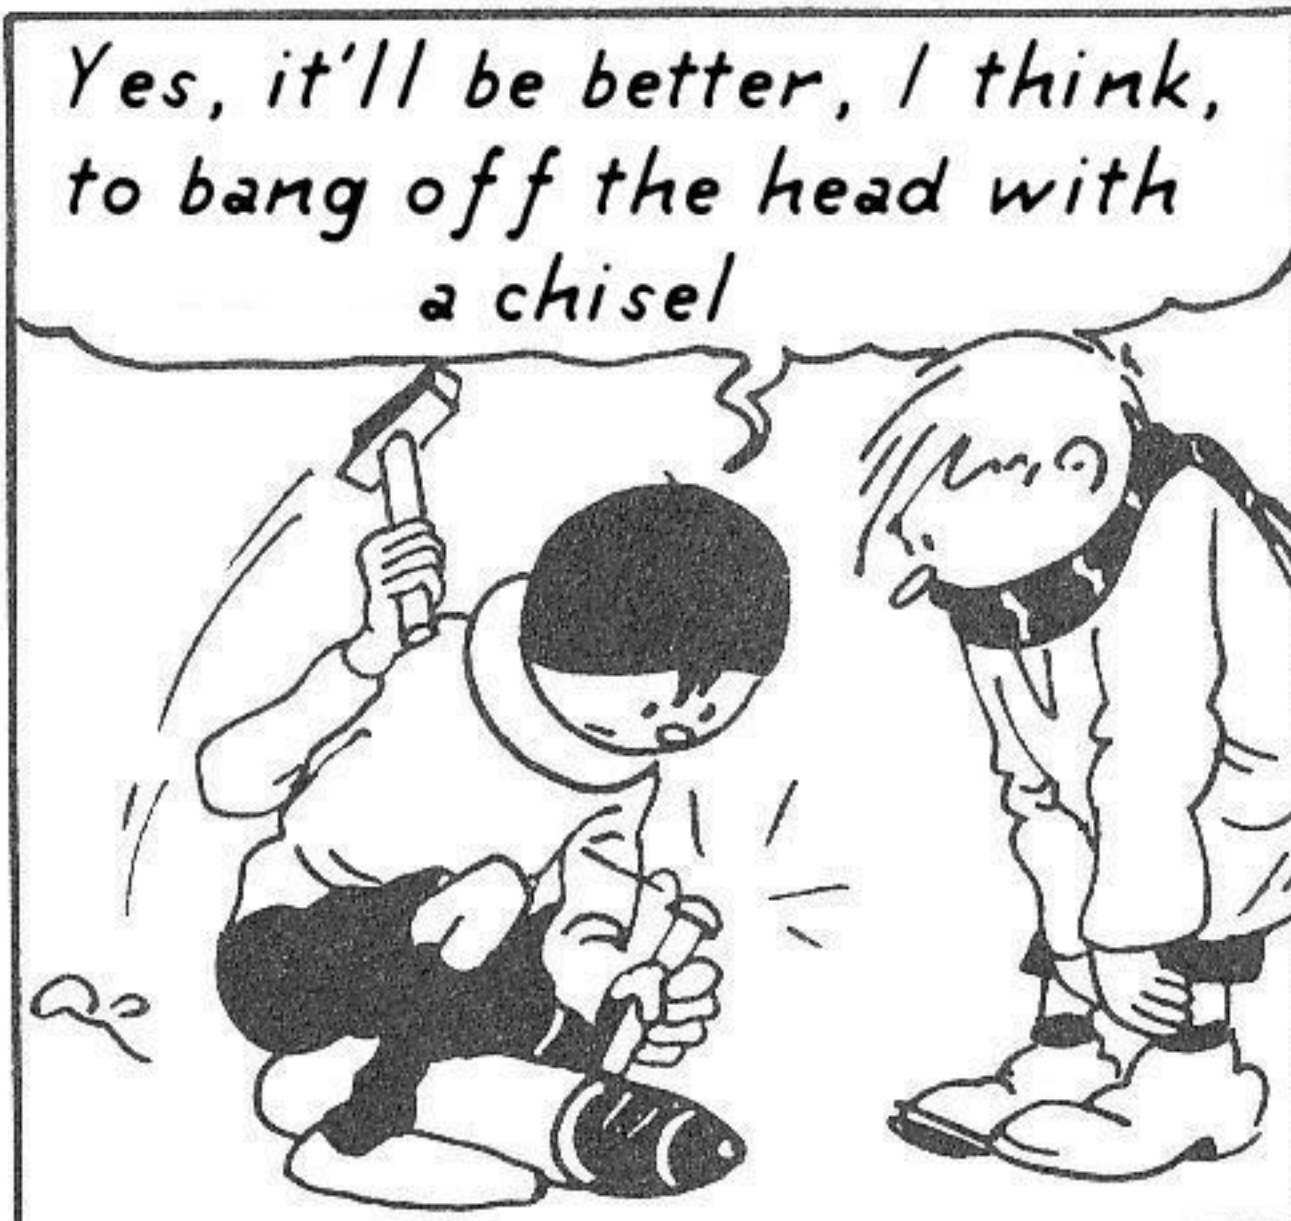

We might do it
with a saw...

It won't work

You see,
nothing will
work!

Yes, it'll be better, I think,
to bang off the head with
a chisel

... And heating it up
with a blowtorch ...
